Your Odyssey.*

**Performance is not a
destination, it's a journey.**

Whether you're an elite athlete, a wellness enthusiast or a business designing spaces for high-end clients, Odyssey Plunge delivers products that are as beautiful as they are effective. Our mission is simple: to set a new standard for the wellness industry, where timeless design & engineering expertise work together in harmony.

Forge Ice Bath

Precision-engineered for recovery that lasts. Its oval design and larger capacity provide full-body immersion, giving you space and comfort beyond other baths. With temperature control from 3 °C to 40 °C, Forge delivers consistent cold and heat immersion. Stronger, larger, and built to endure daily use, it's the deal choice for athletes, wellness enthusiasts, and high-end facilities.

INTERNAL
1400mmL X 800mmW X 600mmH

Net Weight: 120kg
Gross Weight: 647kg

EXTERNAL
1500mmL X 900mmW X 700mmH

SIDE CABINET:
940mmW X 600mmD X 670mmH

316 MARINE GRADE STAINLESS STEEL

ADVANCED CHILLER SYSTEM

Our high-performance chiller takes water as low as 3°C, delivering reliable cold immersion with precision control.

FILTRATION

Built-in UV filtration keeps water clear, clean & hygienic with minimal upkeep.

WEATHERPROOF COVER

Protects your plunge from the elements and keeps the water ready for use all year round.

Atlas Ice Bath

Bring recovery home with the Atlas, our tall, round plunge designed for a deeper, more immersive experience. With two easy steps to enter and a comfortable built-in seat, Atlas makes cold therapy both accessible and enjoyable. The steel liner ensures lasting durability and a clean, modern look, while the elevated design allows for a refreshing full-body soak that fits seamlessly into your wellness routine. Perfect for patios, gardens, or dedicated recovery spaces, Atlas combines sleek style with everyday practicality—helping you recharge, reset, and feel your best right at home.

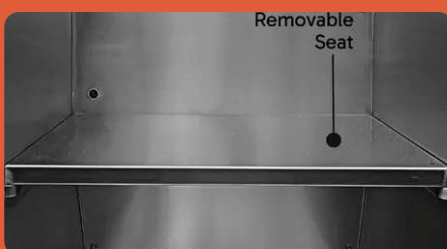

INTERNAL

Net Weight: 150kg
Gross Weight: 610kg

EXTERNAL
800mmD X 800mmW X 640mmH

316 MARINE GRADE STAINLESS STEEL

INTEGRATED SEAT

Integrated seat design ensures a comfortable, upright seating position, enhancing stability, posture, and relaxation during every cold plunge session.

ADVANCED CHILLER SYSTEM

Our high-performance chiller takes water as low as 3°C, delivering reliable cold immersion with precision control.

WEATHERPROOF COVER

Protects your plunge from the elements and keeps the water ready for use all year round.

The Odyssey System

Engineered for every stage of recovery

The Odyssey System is the heart of our cold and heat immersion range. Every system is designed to deliver precise temperature control, clean water and dependable performance.

With two levels available (Pro and Apex), there is an Odyssey System to match every need, from home recovery to professional wellness facilities.

BUILT TO SUIT YOUR SPACE

No two recovery journeys are the same. That is why the Odyssey System comes in two options, each engineered for a different scale of use.

Pro adds extra power and advanced filtration for athletes and gyms. Apex delivers maximum capacity and complete water management for professional environments.

CHILLER POWER

Determines how fast the system can cool water. Pro use 1HP chillers, perfect for homes and smaller baths. Apex steps up to 2HP for rapid cooling in larger or high-use environments.

COOLING CAPACITY

Can chill your water to an invigorating 3 degrees.

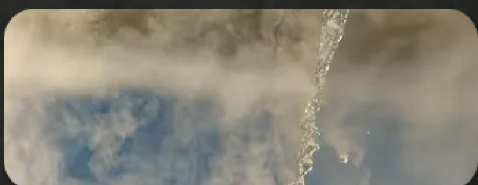

FILTRATION

Pre-Filter protects the system by catching larger debris.

Ozone Filter disinfects naturally, reducing the need for chemicals.

Paper Filter captures fine particles to keep water clear.

UV Filter neutralises bacteria and pathogens, included as standard across all systems.

HEATING CAPACITY

Optional heating functionality lets you enjoy warm water up to 40 degrees

SURFACE SKIMMER

Exclusive to Apex, this continually cleans the water's surface by removing oils and impurities before they sink.

Summit Ice Bath

Summit is the tallest bath in the Odyssey range, designed for full-body immersion with ease of entry thanks to its double step. Its rectangular shape and stainless steel seat provide comfort while supporting deep recovery. With temperature control from 3 °C to 40 °C, it moves seamlessly between cold and heat immersion. Engineered for commercial settings, Summit combines robust performance with timeless design, helping users recover effectively and confidently.

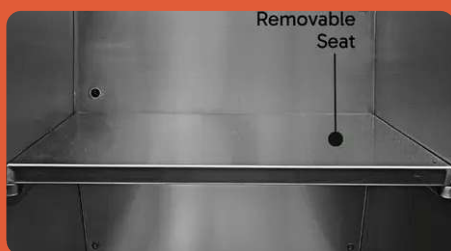

INTERNAL
1230mmL X 1085mmH X 690mmW

Net Weight: 302kg
Gross Weight: 1223kg

EXTERNAL
2032mmL X 1275mmH X 850mmW

316 MARINE GRADE STAINLESS STEEL

INTEGRATED SEAT

Integrated seat design ensures a comfortable, upright seating position, enhancing stability, posture, and relaxation during every cold plunge session.

WATER SKIMMER

Exclusive to Apex, this continually cleans the water's surface by removing oils and impurities before they sink.

LED LIGHTING

Integrated LED lighting transforms your ice bath experience, setting the perfect ambience for recovery and relaxation.

Titan Ice Bath

Titan brings presence to any space. Slightly shorter than Summit, it delivers full-body immersion without the need for an inner seat. With a generous capacity and wide temperature range, recovery feels both powerful and effortless. Crafted with a stainless steel tank, natural cedar cladding, and advanced controls, Titan combines durability, precision, and striking design for a bath that performs as beautifully as it looks.

Net Weight: 191kg
Gross Weight: 737kg
