*The Stoneworld Team*

A bright, modern living room with large windows and a yellow sofa. The room is filled with natural light from the windows, which offer a view of lush greenery outside. A yellow sofa is the central focus, with a white chair and a table nearby. The floor is made of large, light-colored stone tiles.

# BESPOKE STAIRCASES

Moleanos Limestone

Stoneworld's masonry workshop specialises in creating unique stone staircases, serving as exquisite architectural centrepieces for homes. The process begins with precise templating using advanced digital technology, followed by production of individual pieces fabricated in the masonry workshop using a water-jet cutter to ensure unparalleled accuracy and a perfect fit. We can help you create these staircases in the stone of your choice, tailoring each project to your specific preferences and requirements.

# FINISHES

---

Choose from a range of exquisite finishes, including Honed, Brushed, Sandblasted, Sawn and Tumbled to name a few.

Elevate your interiors with our premium flooring options.

## HONED & BRUSHED

A silky smooth, non-reflective surface finish is then brushed for texture to provide a sophisticated and contemporary look.

## NATURAL FINISH

On stone - a naturally cleft surface. On porcelain - this emulates the texture and appearance of natural stone, providing a refined and elegant surface.

## SABLINO

Sandblasted and brushed for a gentle texture to create a timeworn appearance with softly tumbled edges.

## TUMBLLED

Gently rounded and fettered edges with a smooth, flat surface finish which is applied to recreate the appearance of old flagstones

\*Some natural colour variation will occur

# FINISHES

---

Choose from a range of exquisite finishes, including Honed, Brushed, Sandblasted, Sawn, Tumbled, Hand-cut, natural finish and wood finish. Elevate your interiors with our premium flooring options.

## RUBBED/HONED

Gently polished by machine to create a silky, smooth surface which will have a matt or low sheen.

## ACID-ETCHED

## & BRUSHED

By etching certain limestones with acid, a coarse surface texture is created which is then softened by a gentle brushing process. Imagine a genuine antique stone finish.

## WOOD FINISH

A variety of oak finishes, ranging from classic warm tones to contemporary styles, enhancing the natural beauty of wood.

## SAWN

An unpolished finish maintaining its natural texture and offering a plain, authentic finish.

\*Some natural colour variation will occur

A dimly lit dining room is visible through a large window. The room features a wooden dining table surrounded by chairs, with a large arched opening in the background. The floor is covered in light-colored tiles. The text is overlaid on this scene.
