Sponsorship and Exhibition Opportunities

WELCOME MESSAGE

Dear Industry Colleagues,

We are thrilled to announce the **Asia Pacific CCUS Conference and Exhibition (APCC) 2025** will take place from **26–27 August 2025** in **Kuala Lumpur, Malaysia**. This event represents the culmination of various SPE workshops and symposia held over the past decade, making it the pivotal platform for advancing the region's pursuit of cutting-edge CCS/CCUS technologies, commercial objectives and hub ambitions.

CCS/CCUS technologies have emerged as critical solutions for mitigating greenhouse gas emissions, particularly in the rapidly industrialising and urbanising Asia Pacific region.

However, several challenges impede the widespread adoption of these technologies. One major obstacle is the high upfront costs of implementing CCS/CCUS infrastructure, which includes capture technologies and storage facilities. Additionally, regulatory frameworks governing CCS/CCUS projects vary across countries, posing legal and financial uncertainties for investors and project developers. APCC 2025 acknowledges these obstacles and aims to provide a platform for the community to exchange knowledge, foster collaborative partnerships, and function as a catalyst for the region's ongoing efforts in implementing scalable CCS/CCUS technologies to meet economic and climate goals.

APCC 2025 offers specialised opportunities for companies and industry leaders to network with business and technical professionals, and to access the latest in research and technology. The conference programme will encompass the entire CCS/CCUS value chain, addressing efforts and solutions across industries. Emphasis will be placed on both upstream and midstream sectors, tackling challenges involved in developing capture sites, establishing efficient transportation and pipeline infrastructure, designing hubs, and creating networks for the effective deployment of CCS/CCUS.

The goal of the exhibition is to feature companies and service providers showcasing their latest technologies and capabilities, demonstrating the industry's dedication to adopting technological advancements and scalable solutions with a focus on sustainability and emissions reduction.

On behalf of the Organising Committee, we invite and welcome you and your company to showcase your thought leadership, solutions, and services at the conference. Your participation will contribute to the conversations that will shape the future of the energy sector.

We look forward to welcoming you to APCC 2025. See you in Kuala Lumpur!

APCC 2025 will provide a platform for the community to exchange knowledge, foster collaborative partnerships, and serve as a catalyst for the region's ongoing efforts in implementing scalable CCS/CCUS technologies to meet economic and climate goals.

The Society of Petroleum Engineers (SPE) is a not-for-profit organisation dedicated to advancing the oil, gas and energy industry.

Sponsoring or exhibiting at an SPE event helps fund vital industry programmes. Your support reinvests in initiatives such as the Energy4me® education programme, scholarships, and the Distinguished Lecturer series, driving professional growth and advancing the energy sector.

Explore

new frontiers in the CCS/CCUS value chain leveraging innovative research, project development, case studies, and lessons learnt.

Gain inspiration

from thought leaders and decision-makers who are driving the strategic development of CCS/CCUS in the region.

Foster

collaborative partnerships to advance R&D investments and shape a sustainable energy future.

Gain insights

into state-of-the-art technologies and scalable solutions with a focus on sustainability and emissions reduction.

Network

and exchange diverse perspectives with peers and experts.

Enhance, Showcase and Strengthen Your Brand

SHOWCASE your organisation as a pioneer at the forefront of emerging trends and innovations in CCS/CCUS for a sustainable energy future.

ESTABLISH and REINFORCE your brand's mission and commitment to sustainable development and emissions reduction.

ENGAGE and NETWORK with key stakeholders, industry leaders, and decision-makers to forge strategic partnerships and expand your professional network.

SHOWCASE and FEATURE your organisation's expertise, innovations and leading-edge technologies to the energy community

Join decision makers, business executives, technical professionals, policy makers and academia specialising in:

-  CCUS and Carbon Management
-  Emissions Management
-  Drilling
-  Management
-  Reservoir
-  Completions
-  Project Facilities and Construction
-  Production and Operations
-  HSES
-  Data Science and Engineering Analytics
