

SPE Symposium and Exhibition: Production Enhancement and Cost Optimisation

3-4 September 2024 | Kuala Lumpur, Malaysia

“ In the ever-changing energy landscape, our focus is on maximising production, keeping costs in check, and embracing sustainability. From going digital to fostering collaboration, this symposium is where we gather to share and discuss operational efficiency, ensuring financial health, and paving the way for a resilient, low-carbon future to share and discuss operational efficiency, ensuring financial health, and paving the way for a resilient, low-carbon future ”

Sponsorship and Exhibition Opportunities

Welcome Message

Dear Industry Colleagues,

We are delighted to extend a warm invitation on behalf of the Symposium Committee to the third edition of the **SPE Symposium and Exhibition: Production Enhancement and Cost Optimisation**, scheduled to take place from 3 - 4 September 2024 in Kuala Lumpur, Malaysia.

Amidst the industry's continuous evolution and the urgent need for sustainability in the transition toward renewable energy sources, the emphasis on optimising production output, precise cost control, and the adoption of low-carbon, sustainable practices including GHG emissions management and operational efficiency, has become paramount.

Digitalisation, automation, and electrification enhance operational efficiency, while data analytics, predictive maintenance, and asset integrity management ensure equipment reliability and minimise downtime. Additionally, reservoir management strategies optimise hydrocarbon recovery, and innovations in subsea and remote operation technologies create new possibilities in challenging offshore environments. Collaborative efforts among industry players in driving innovation and cost-sharing also underscore the increasing importance of partnership in industry.

This symposium has been meticulously designed to provide a comprehensive industry update while fostering knowledge exchange within the collaborative sphere of production optimisation. This event serves as a crucial platform for engaging in high-level discussions with senior leaders, and facilitating the sharing of technical expertise through the presentation of best practices and case studies; all with the ultimate goal of achieving optimised and cost-efficient operations.

On behalf of the Organising Committee, we invite you to participate and showcase your technical and innovative solutions and services. Numerous networking opportunities will be available to reconnect with business partners and establish new connections.

We look forward to welcoming you to Kuala Lumpur, where knowledge intersects with innovation, and collaboration propels us towards a sustainable and prosperous future.

Driving Productivity, Optimising Costs: Showcase Your Solutions

Prepare to be part of the third edition of the **SPE Symposium and Exhibition: Production Enhancement and Cost Optimisation**, coming to life in **Kuala Lumpur, Malaysia** on **3rd – 4th September 2024**.

In the ever-changing landscape of the industry and the pressing call for sustainable practices in the shift to renewable energy, there is a critical focus on enhancing production efficiency, meticulous cost management, and embracing eco-friendly measures such as managing greenhouse gas emissions and improving operational efficiency. The significance of collaboration among industry stakeholders in promoting innovation and sharing costs further highlights the growing importance of partnerships in the sector.

300+
participants from
15+ countries

50+
industry and subject
matter experts

15+
hours of engaging
plenary panels,
technical, and
ePoster session

6+
hours of targeted
networking breaks

Exhibit showcase
of cutting-edge
services and
solutions

The symposium will provide critical and timely industry insights and facilitate knowledge sharing on advance production optimisation and operational decarbonisation. Senior business leaders and subject matter experts will share best practices and case studies to achieve optimised, cost-effective, and low-carbon production operations through interactive dialogues and industry-leading technical presentations.
