

SPE Symposium and Exhibition: Decommissioning and Abandonment

3-4 December 2024 | Kuala Lumpur, Malaysia

“ Undoubtedly, decommissioning is on an increasing trend over the last few years in this region; and it is the duty of regulators, operators, service providers and academia alike to continuously collaborate in achieving cost compression and increased execution efficiencies. ”

Sponsorship and Exhibition Opportunities

Welcome Message

Dear Industry Colleagues,

On behalf of the Symposium Committee, it is with great pleasure that we invite you to the **SPE Symposium and Exhibition: Decommissioning and Abandonment**, scheduled to be held from **3 - 4 December 2024** in **Kuala Lumpur, Malaysia**.

Amidst the global transition towards cleaner energy, the reuse and repurposing of disused oil and gas infrastructure should be seriously considered as viable decommissioning options to promote sustainability and cost-efficiency.

Although the challenges of decommissioning and abandonment are formidable, adopting a holistic, sustainable, and collaborative approach enables us to envision and create a future where trust, credibility, and a sense of responsibility to the environment take centre stage.

These endeavours are typically costly and lack revenue generation, yet they are vital for mitigating safety and environmental risks. Emerging trends and technologies are applied to optimise costs, manage risks, and ensure regulatory compliance.

Topics and discussions at the symposium will encompass policies, regulations, offshore and onshore decommissioning, cost optimisation, lessons learnt and best practices. Despite challenges, collaborative efforts have the potential to spur innovation, promote sustainability, and drive responsible energy practices in Asia Pacific and globally.

We welcome and encourage the support and collaboration of our industry and its leaders to join us in showcasing your thought leadership, solutions, and services at the symposium. We eagerly anticipate your participation at the SPE Symposium and Exhibition on Decommissioning and Abandonment in Kuala Lumpur!

About the Symposium

In our efforts to drive a global transition towards cleaner energy sources, the role of decommissioning in the energy transition is crucial. However, during economic downturns, decommissioning and abandonment (D&A) projects are often deprioritised, risking the loss of momentum and innovation. Despite the daunting challenges presented by decommissioning and abandonment processes, embracing a comprehensive, sustainable, and collaborative approach enables us to envision and shape a future where trust, credibility, and environmental stewardship take on paramount importance.

300+
participants from
20+ countries

80+
industry and subject
matter expert speakers

15+
hours of engaging plenary,
panel, technical, and ePoster
sessions

6+
hours of targeted
networking

Exhibit showcase of
cutting-edge services
and solutions

The symposium will include discussions on innovative solutions, environmental protection, safety, and strategic measures. These discussions will address the financial, operational, and regulatory complexities involved in decommissioning and abandonment projects. Our focus is on providing professionals and stakeholders with valuable resources to address today's challenging economic climate responsibly and sustainably.

Create new networks
with industry experts and
professionals globally

Collaborate with industry players,
regulators, research institutions,
and NGOs to foster common
goals through knowledge sharing

Communicate ideas, experiences,
and technological innovations
to streamline costs and enhance
existing decommissioning and
wells P&A methodologies

Enhance, Showcase and Strengthen Your Brand

HIGHLIGHT your organisation's latest innovations, services and expertise on a global scale

ENGAGE and **NETWORK** face-to-face with existing clients and meet new business prospects

OBTAIN qualified leads and opportunities

PROMOTE and feature your organisation's latest services and products to key buyers and stakeholders.

Join business executives, decision makers, technical experts, and solution enablers specialising in:
