CARBON STORAGE AND MANAGEMENT

13-14 AUGUST 2024 | KUALA LUMPUR, MALAYSIA

 About the Workshop

Carbon Storage and Management

The Asia Pacific region is witnessing a growing trend towards embracing carbon storage solutions as nations endeavour to mitigate greenhouse gas emissions and adhere to international climate agreements. To capitalise on the opportunities presented by carbon storage, the industry must adopt a multifaceted approach encompassing policy reforms, strategic partnerships, and technological innovations.

The SPE Workshop: Carbon Storage and Management provides a platform to facilitate knowledge exchange, foster strategic partnerships, and inspire actionable steps to accelerate the adoption of scalable carbon storage solutions while meeting global climate commitments.

EXPLORE new frontiers in carbon storage and management leveraging the latest in research, project development, case studies, and lessons learnt.

GAIN insights into pioneering technologies and scalable solutions in carbon storage with a focus on sustainability and emissions reduction.

FOSTER collaborative partnerships to advance carbon storage and management in Asia Pacific and **SHAPE** a sustainable energy future.

NETWORK and **EXCHANGE** diverse perspectives with peers and experts in the carbon storage field.

 Sponsorship Opportunities

Sponsorship support of the event helps offset the cost of producing workshops and allows SPE to keep the attendance price within reach of operation level-individuals, those who benefit most from these technical workshops.

Sponsors benefit both directly and indirectly by having their names associated with a specific workshop. While SPE prohibits any type of commercialism within the workshop room itself, the Society recognises that sponsoring companies offer valuable information to attendees outside the technical sessions.

 Who We Are

SPE is the largest individual member organisation serving managers, engineers, scientists and other professionals worldwide in the upstream segment of the oil and gas industry.

The Society of Petroleum Engineers (SPE) is a not-for-profit organisation. Income from this event will be invested back into SPE to support many other Society programmes. When you attend an SPE event, you help provide even more opportunities for industry professionals to enhance their technical and professional competence. Scholarships, certification, the Distinguished Lecturer programme, and SPE's energy education programme Energy4Me® are just a few examples of programmes supported by SPE.
