MARGINAL AND MATURE FIELD DEVELOPMENT AND OPERATION

6-7 AUGUST 2024 | KUALA LUMPUR, MALAYSIA

 About the Workshop

Marginal and Mature Field Development and Operation

This workshop will explore various views on marginal field development and operation, focusing on integrating strategies from mature field management to ensure sustainable energy production throughout the asset lifecycle. This gathering of industry experts will explore innovative approaches, best practices, and emerging technologies tailored to maximise the potential of marginal fields while addressing challenges in their late-life phases.

Participants will gain insights into reservoir characterisation methodologies, enhanced oil recovery techniques, cost-effective drilling solutions and fit-for-value facilities concepts tailored to marginal environments. Through case studies and interactive discussions, attendees will uncover synergies between mature and marginal field development, unlocking new pathways for maximising asset value.

LEARN from leading experts and decision-makers driving the field through in-depth technical knowledge sharing and discussions.

IMPROVE operational efficiency in various areas of marginal and mature fields operations.

LEVERAGE peer-to-peer networking opportunities to enhance industry collaborative efforts.

 Sponsorship Opportunities

Sponsorship support of the event helps offset the cost of producing workshops and allows SPE to keep the attendance price within reach of operation level-individuals, those who benefit most from these technical workshops.

Sponsors benefit both directly and indirectly by having their names associated with a specific workshop. While SPE prohibits any type of commercialism within the workshop room itself, the Society recognises that sponsoring companies offer valuable information to attendees outside the technical sessions.

 Who We Are

SPE is the largest individual member organisation serving managers, engineers, scientists and other professionals worldwide in the upstream segment of the oil and gas industry.

The Society of Petroleum Engineers (SPE) is a not-for-profit organisation. Income from this event will be invested back into SPE to support many other Society programmes. When you attend an SPE event, you help provide even more opportunities for industry professionals to enhance their technical and professional competence. Scholarships, certification, the Distinguished Lecturer programme, and SPE's energy education programme Energy4Me® are just a few examples of programmes supported by SPE.
