## Exhibition and Sponsorship Opportunities

# Welcome to the SPE Scale Symposium 2026

As chair of the **SPE Scale Symposium** Programme Committee I would like to make you aware that this event will be returning to **Aberdeen** on **20-21 May 2026**.

While our understanding of the factors that influence inorganic scale formation and control are constantly improving, more extreme environments for hydrocarbon recovery continue to emerge as we move deeper into the energy transition. These environmental challenges include physical properties such as high pressure/temperature, high total dissolved solids and high pH, location in the form of deep-water wells with complex subsea architecture, as well as unconventional long reach horizontal wells.

The inorganic scale challenges within energy technologies such as geothermal (high and low enthalpy) and Carbon Capture Utilisation and Storage (CCUS) are receiving more attention as these elements of the energy transition receive increased focus and so the committee are keen to hear about these industries challenges and solutions.

Held every two years, this event offers an unrivalled opportunity for you to share your challenges and solutions to inorganic scale control management, from fundamental research to hands on experience of tackling such challenges in field applications within the energy sectors.

The 2026 Programme Committee invites you to share your knowledge at this unique and very well-attended event. We welcome your oral or poster abstracts in all inorganic scale related areas as noted in the list of technical categories, especially case studies with operational data to support effectiveness and sustainability of treatment programmes.

Sincerely,

**Myles M. Jordan**

Committee Chair, Marketing Director, ChampionX

The symposium includes the highest calibre of peer-selected technical abstracts relating to oilfield scale and will bring together leading international operators, service providers and research bodies from around the world. The technical programme will address both current and new challenges for effective scale management throughout an asset's lifecycle..

With a highly targeted attendee audience, the event acts as an ideal backdrop to associate your company with the key themes driving this marketplace and to raise its profile. This brochure will give you an outline of who will attend and the range of ways in which you can make your company's expertise known to them.

However you choose to take part, you will certainly find your involvement at this global forum rewarding.

## ENGAGE AND CONNECT WITH THE SPE SCALE SYMPOSIUM COMMUNITY

**BUILD BRAND  
AWARENESS**

**MEET NEW  
CONTACTS**

**RAISE YOUR  
PROFILE**

## WELCOME DRINKS RECEPTION SPONSOR

**£5,000 + VAT if applicable**

A Welcome Drinks Reception will be held at the venue immediately following the technical sessions at the close of the first day's proceedings. This is an opportunity for all attendees to network in friendly and informal surroundings.

- Signage acknowledging sponsorship in the area that the reception is held
- Three (3) complimentary full delegate places for company employees
- Half page 4-colour advertisement in the symposium Programme
- Logo in pre & post-event promotional email activity
- Logo on social media promotion campaign
- Logo included on the symposium website with a link to your company website
- Logo included in the symposium programme given to all attendees
- Logo on prominent signage displayed at the symposium in high traffic areas
- Logo prominently displayed on signs in the registration area
- Logo on the sponsors' page of the PowerPoint holding slides displayed between technical sessions and during coffee breaks

## EXHIBITOR PACKAGE

**£3,500 + VAT if applicable**

Situated next to the technical sessions rooms, the exhibition will also serve as the location for poster sessions, refreshment breaks and lunches.

### Exhibitors receive the following benefits:

- 2m x 3m exhibition space for exhibitors to bring their own pop-up stand or display
- 1 x table; 2 x chairs; 1 x 13 amp socket.
- Company name and short product description listed in the symposium programme given to all attendees
- Company name listed on the event website with a link to your company website
- One complimentary delegate registration for the symposium
- One access code to the online symposium proceedings
