Symposium Preview

Welcome Message

Well intervention remains a vital enabler for optimising production and extending asset life, and requires a focus to ensure safe and efficient operations throughout the well lifecycle. As the industry evolves, innovative technologies and smarter intervention strategies are redefining how we approach well integrity, production enhancement, and well abandonment - bringing new opportunities. To fully realise these opportunities, collaboration, knowledge sharing, and continuous improvement are essential.

We invite you to join us at the **SPE/ICoTA Symposium and Exhibition: Well Intervention**, taking place on 2-3 December 2025 in Kuala Lumpur, Malaysia. This premier event will bring together industry professionals to exchange knowledge, showcase innovations, and explore the latest advancements in well intervention and abandonment technologies.

The comprehensive or in-depth programme will cover key topics including coiled tubing, e-line, slickline, rigless completions, fishing operations, production enhancement, workovers and CTD, well logging, subsea intervention, asset integrity, and well abandonment. Focused discussions will highlight cutting-edge technologies, operational efficiencies, and strategic approaches to address the evolving challenges in well intervention. The technical programme has been reviewed by a committee of voluntary industry subject matter experts on a technical basis with no commercial bias to deliver the very best knowledge sharing.

Participants will gain valuable insights into innovative approaches and practical solutions that enhance cost efficiency, reduce environmental impact, and uphold safety and reliability standards.

Designed to foster meaningful dialogue and technical exchange, this symposium offers a platform for stakeholders to share experiences, learn from real-world case studies, and collaborate in shaping the future of well intervention.

We extend our sincere thanks to our committee members, speakers, sponsors, exhibitors, and participants for their continued support.

We invite you to take full advantage of this opportunity to connect with industry peers, exchange insights, and strengthen collaboration as we navigate future challenges and unlock new opportunities together.

We look forward to welcoming you to Kuala Lumpur this December at the SPE/ICoTA Symposium and Exhibition: Well Intervention!

About the Symposium

The **SPE/ICoTA Symposium and Exhibition: Well Intervention**, themed “**Intervention Reinvented: Leading Through Innovation**” will be held **2–3 December 2025** in **Kuala Lumpur, Malaysia**.

As energy demands rise and the industry shifts towards sustainability, intervention operations provide a strategic and cost-effective approach to maximising recovery from existing assets. These techniques can achieve production increases of 10% or more, leveraging existing infrastructure to minimise both costs and environmental impact. Simultaneously, as wells reach the end of their productive life, ensuring safe, efficient, and environmentally responsible abandonment is paramount. Adhering to stringent regulatory and operational standards is vital to achieving long-term sustainability and compliance.

This symposium offers a unique platform for the industry to come together. It brings together operators, service providers, and key stakeholders to share best practices, exchange innovative ideas, and address emerging challenges. This collaborative environment fosters dialogue and knowledge sharing, promoting forward-thinking solutions to shape the future of well intervention and abandonment.

300+ participants
from **20+** countries

15+ hours of engaging
plenary, panel, technical,
and ePoster sessions

80+ industry and
subject matter experts

6+ hours of targeted
networking breaks

Create new network links among industry experts and professionals globally

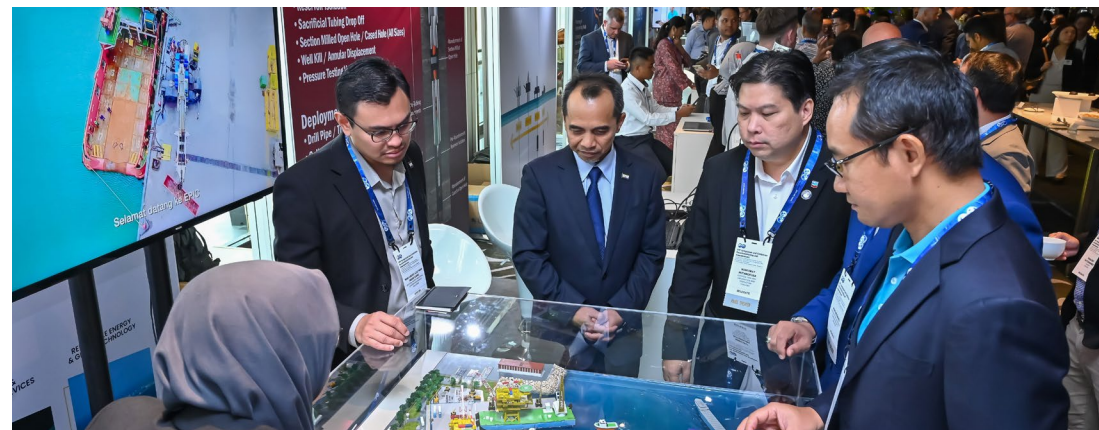

Collaborate with NOCs/IOCs/independent operators, regulators, technology providers, and research and academic organisations to foster common goals through knowledge sharing

Communicate ideas, experiences, and technological innovations to develop the well intervention and abandonment field in Asia Pacific

Join decision makers, business executives, technical professionals, and academia specialising in:

- Artificial Intelligence and Machine Learning
- Asset Integrity and Management
- Carbon Capture and Storage (CCS)
- Completions
- Digitalisation and Automation
- Drilling / Drilling Fluids
- Drilling and Completions
- Formation Evaluation
- Health, Safety, Security and Environment (HSSE)
- Operational Excellence
- Process Safety Management
- Production Analyst
- Production Enhancement
- Production Optimisation
- Production Operation and Management
- Production Technology
- Regulatory Compliance
- Research and Development
- Reservoir Engineering
- Risk Management
- Techno-Commercial
- Well Design and Construction
- Well Engineering
- Well Intervention
- Well Monitoring and Control
- Well Plugging, Abandonment and Decommissioning
- Well Services
- Well Stimulation

REGISTRATION IS NOW OPEN

Register by **3 October 2025** to take advantage of the Early Bird offer.

Group registration packages are also available – Register 5 people and pay for the price of 4.

Visit go.spe.org/26SM02S to register for the SPE/ICoTA Symposium and Exhibition: Well Intervention.

Opening and Keynote Session

Tuesday, 2 December 2025 | 0900-0930 hours | Grand Ballroom, Level 6A

The Opening and Keynote Session of the SPE/ICoTA Symposium and Exhibition: Well Intervention will set the stage for an impactful event, bringing together insights from industry leaders.

This session will explore the future of well intervention, share invaluable lessons learned, and emphasise the importance of collaborative partnerships through stakeholder engagement, alignment with sustainability goals, and the advancement of innovation in intervention and abandonment practices.

Attendees will gain timely perspectives on emerging trends and strategic approaches to navigate the evolving complexities of the industry.

Executive Plenary Session

SLB

Well intervention is evolving rapidly as operators seek smarter, safer, and more cost-effective ways to maximise reservoir performance and extend well life. This session will highlight how innovation is transforming traditional intervention practices through advanced technologies, digital tools, and new methodologies.

Industry experts will discuss real-world applications that deliver improved operational efficiency, enhanced recovery, and reduced non-productive time.

From rigless intervention and robotics to real-time monitoring and data analytics, learn how companies are overcoming complex downhole challenges and pushing the boundaries of what's possible. Gain valuable insights to stay ahead and lead the next wave of well intervention excellence.

Panel Session

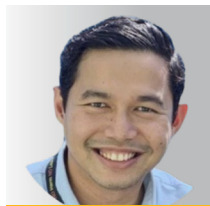

Panel Session: The Importance and Future of Intervention in Production Enhancement and Recovery in Asia

As Asia's maturing fields face declining production, well intervention plays a critical role in sustaining output and unlocking untapped reserves.

This session examines how intervention strategies, emerging technologies, and innovative techniques are driving production enhancement and recovery across diverse reservoirs in the region. Industry experts will share insights into cost-effective solutions, best practices, and lessons learned from complex interventions.

From extending well life to boosting recovery, discover how operators are adapting to evolving challenges, navigating economic pressures, and positioning intervention as a key enabler to meet Asia's growing energy demand while ensuring operational efficiency and sustainability.

Technical and Knowledge Sharing ePoster Sessions

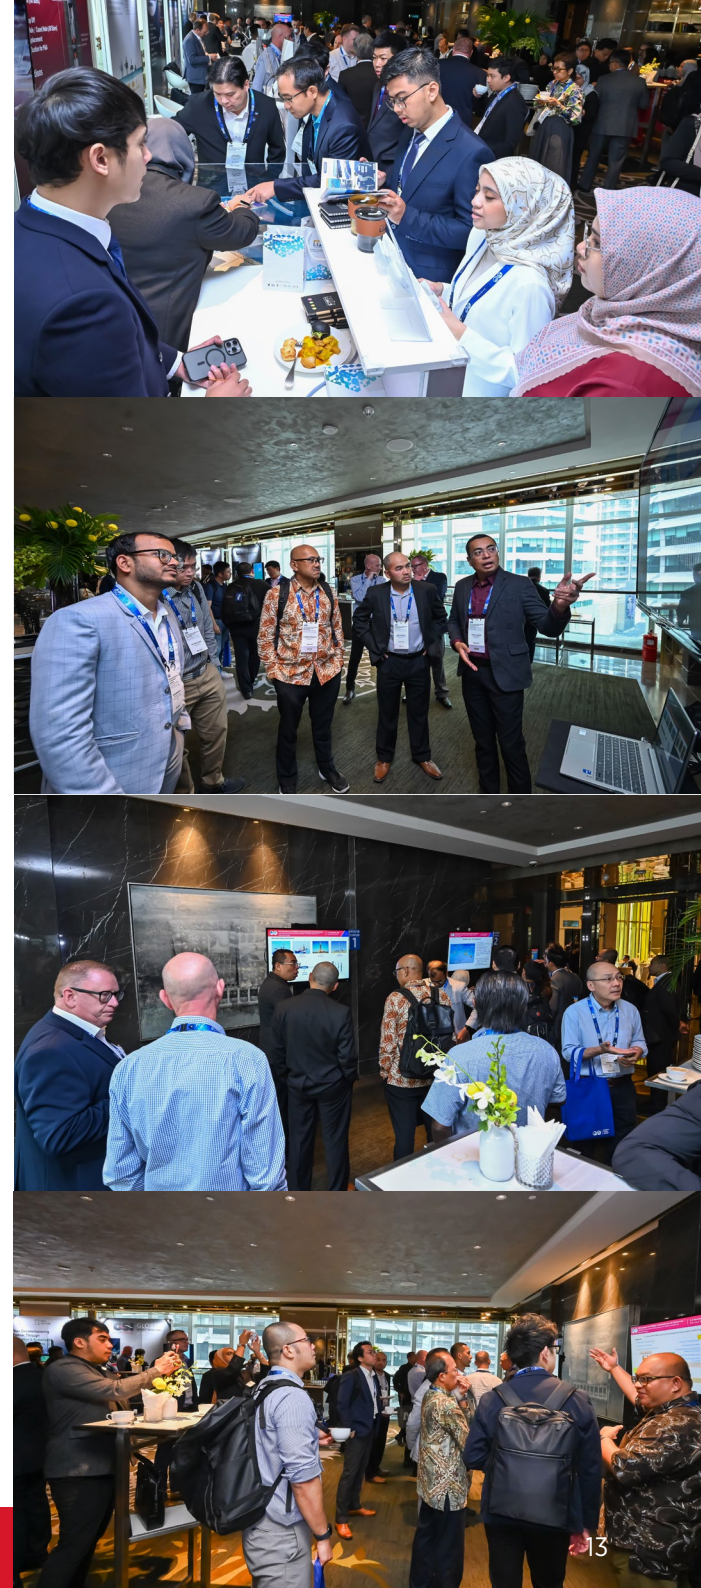

More than 90 technical presentations will be presented across a vast variety of technical topics at the Technical and ePoster Sessions.

Technical Sessions include:

- Coiled Tubing
- E-line
- Rigless Completion
- Fishing Operations
- Production Enhancement I
- Asset Integrity I
- Subsea Interventions
- Well Abandonment
- Slickline
- Production Enhancement II
- Asset Integrity II
- Workovers & CTD
- Well Logging

Sponsorship Opportunities

Sponsorship opportunities for the SPE/ICoTA Symposium and Exhibition: Well Intervention have been designed to provide exposure and visibility for organisations in the energy industry.

We offer a variety of sponsorship packages to strengthen your brand identity and enhance your organisation's image at the symposium.

Sponsorship Packages

List of Packages	By 7 August	After 7 August
Principal Sponsor	USD 10,000	USD 11,500
Gold Sponsor (With 4 sqm Exhibit Showcase Display Kiosk)	USD 7,900	USD 8,200
Welcome Reception - Day 1 (2 December)	USD 7,500	USD 8,000
Lanyards	USD 7,000	USD 7,500
Directional Signage	USD 6,000	USD 6,500
Silver Sponsor (With 4 sqm Exhibit Showcase Display Kiosk)	USD 5,900	USD 6,200
Digital Symposium Preview and Mobile App	USD 5,500	USD 6,000
Networking Luncheon - Day 1 (2 December)	SOLD	SOLD
Symposium Water Bottles	USD 5,000	USD 5,500
Symposium Caps	USD 4,500	USD 5,000
Symposium Writing Pads and Pens	USD 4,500	USD 5,000
Daily Coffee Breaks	USD 4,000	USD 4,500
Symposium Bag Insertion	USD 3,500	USD 4,000

Early check-in before 10:00hrs is subject to Pre- Registered Reservation with one (1) night charge. Late check-out 14:00hrs to 18:00hrs is subject to 50% fee of the room rate. Late check-out later than 18:00hrs is subject to one (1) night charge.

Visa

Event attendees travelling to Kuala Lumpur, Malaysia must be in possession of passports valid for a least six (6) months with proof of onward passage out of the country. Visa requirements depend on the country of origin. Please check with your travel agent, or the Malaysia Embassy or Consulate on regulations relating to immigration/visa before your departure.

An invitation letter to facilitate the application of visa will be issued to registered attendees if required Download Invitation Letter Request Form [here](#). Please send the request to Faezah Saaban at email fsaaban@spe.org.

Please note that it is the sole responsibility of the attendee to obtain the necessary paperwork for entry into Malaysia. The invitation letter does not guarantee that you will be granted a visa.

The Society of Petroleum Engineers (SPE) is a not-for-profit organisation dedicated to advancing the energy industry and empowering professionals.

Revenue from this event supports SPE initiatives that drive professional growth, foster community, and deliver innovative solutions. By attending, sponsoring, or exhibiting at an SPE event, you help fund impactful programmes such as JPT, certification, the Distinguished Lecturer Programme, and Energy4me®, our energy education initiative. Together, we are advancing careers, building connections, and shaping the future of energy.
