You can customize the booth by changing people in the booth (staff) and the color of the booth, upload logos, documents, etc. You have ability to chat with attendees during show hours or attendees can drop a business card to set up a time to meet. You will receive a lead retrieval report that shows who visited the booth, who clicked on the documents and videos in your booth, who dropped a business card, etc. You can choose to do a "give away" by selecting someone who drops a business card on show days to make your booth more exciting.

To download leads, go to the "All Booth Visitors" table and select the three dots in the upper right-hand corner. From there, select "Download Data..."

## Duke Family Medicine Residency Program - Booth Report 22d ago
