## **Announcement: Asia Pacific Oil & Gas Conference and Exhibition 2020 is going virtual**

Given the continued public health concerns and travel restrictions by government and companies related to COVID-19, the Asia Pacific Oil & Gas Conference and Exhibition (APOGCE) 2020 initially scheduled to take place in Perth, Australia will transition to a virtual event with new dates from 17-19 November 2020.

The organising committee and SPE are committed to safeguarding the health and safety of our partners, attendees, exhibitors, and staff. By transforming to a virtual event, we are committed to continuing to provide the industry with a platform for technical knowledge exchange and engagement – where participants can connect from anywhere in the world. In addition, the virtual APOGCE 2020 will provide opportunities for technical showcases and business networking in its virtual exhibition.

SPE would like to take this opportunity to thank you and your organisations for your understanding, continued support and participation in APOGCE 2020.

Sincerely,

Bernadette Cullinane
