

SPE/IADC Middle East Drilling Technology Conference and Exhibition

Building on Today's Efficiencies for Tomorrow's Market

29–31 January 2018

Jumeirah at Etihad Towers
Abu Dhabi, UAE

Post-Event Report

About the Conference

The SPE/IADC Middle East Drilling Technology Conference and Exhibition is one of the biggest drilling events in the region and is a joint effort between two highly respected industry associations, the Society of Petroleum Engineers (SPE) and the International Association of Drilling Contractors (IADC).

The event provides an unprecedented platform for experts in drilling and completions to share their latest technological advancements, evolving challenges, and successful case histories.

“

This event provides the only forum in the Middle East for operators, service companies, drilling contractors, and manufacturers to share their latest technologies, challenges and future needs to bring the world of drilling, completions, workovers and well integrity much closer and enable it, under harsh market conditions, to provide the industry the services it needs.

”

A. Salim David Khemakhem
2018 Conference Co-Chairperson
Subsurface Support Manager
ExxonMobil

“

The MEDT has proven to be a gateway for technologies and a platform hub for experienced professionals.

”

Attendee Statistics

These statistics provide a snapshot of the professional classifications, and geographical breakdown of the attendees that participated in 2018. The event attracted 694 professionals from the industry representing 168 organisations and 34 countries.

Technical Interests

■ Drilling	77%
■ Completions	17%
■ Reservoir Description and Dynamics	6%

Job Classifications

■ Engineer	36%
■ Executive	14%
■ Student	14%
■ Geologist/Geophysicist	9%
■ Manager	9%
■ Sales and Marketing	6%
■ Research and Development	3%
■ Superintendent/Foreman	3%
■ Consultant	3%
■ Educator	3%

Geographic Region

■ Middle East	43%
■ UK/Europe	18%
■ United States	9%
■ Asia/Asia Pacific	9%
■ Canada	6%
■ Russia/Caspian	6%
■ Sub Saharan Africa	6%
■ Australia/New Zealand	3%

All the above information is based on the 2018 attendee survey.

93%

would possibly to definitely recommend this event to others in their field

92%

rated the exhibition good to excellent

92%

rated the networking as good to excellent

95%

rated the technical content as good to excellent
