

Submission Deadline Extended

Dear {{lead.First Name:default=Energy Professional}},

Do you still want to submit a paper proposal for the [International Petroleum Technology Conference \(IPTC\)](#)? The programme committee is pleased to announce that the submission deadline for paper proposals has been extended to **Sunday, 11 July 2021**.

Take this opportunity to showcase your knowledge and experience to other experts, innovators, and leaders with the common interest of advancing the industry and resolving its evolving challenges.

SUBMIT YOUR PAPERS TODAY

SUBMISSION DEADLINE EXTENDED TO 11 JULY 2021

MESSAGE FROM THE EXECUTIVE COMMITTEE CHAIR

"IPTC 2022 will demonstrate the energy sector's resilience, ecosystem evolution, and technological advancement during one of the most challenging times of our industry. Global industry leaders will exchange their views on how to achieve economic growth, social development, and environmental sustainability as the industry emerges from this global pandemic. The conference will highlight how innovation and technology can lead the industry to develop sustainable solutions to achieve growth within the boundaries of a circular economy. The premier venue will host global industry leaders, a

world-class exhibition and technical programs promoting emerging technologies and exploring new possibilities of excellence."

Nasir K. Al-Naimi
Executive Committee Chair
Senior Vice President, Upstream, Saudi Aramco

TESTIMONIALS FROM THE CO-CHAIRS OF THE EAGE AND SUSTAINABILITY SUB-COMMITTEES

Wael Abdallah
EAGE Co-Chair
Schlumberger

Adam Hawkes
Sustainability Co-Chair
Imperial College London

"IPTC is an opportunity to meet and discuss your current work with the experts in the field, it is a place where you can translate your work into real application and business opportunities, it is a place where you can learn and understand the challenges in the oil and gas, it is the place to be in 2022."

"Sustainability is of ever-increasing importance to the oil and gas industry, which must demonstrate leadership in rising to this global challenge. IPTC 2022 is the best forum to present projects, insights and ideas on this, enabling you to reach a huge and influential audience, and making sure your work gets the recognition and impact that it deserves."

TECHNICAL TOPICS ON PRODUCTION ENGINEERING, UNCONVENTIONAL, AND OVERARCHING THEMES INCLUDE:

Production Engineering

• Well Production and Sustainability • Fracturing and Stimulation • Water and Gas Injection • Well Production Optimisation • Tracers Injection and Application •

Unconventional

• Unconventional Resources Evaluation and Characterisation • Unconventional Drilling and Completion • Unconventional Stimulation and Operational Efficiency •

Overarching Themes

• Health and Safety • Security • Human Resources • Social Responsibility • Lessons Learnt and Knowledge Management • Business Development, and Commercial and Risk Management •

MESSAGE FROM THE TECHNICAL PROGRAMME CO-CHAIRS

Ashraf AlTahini

Technical Programme
Chair
Manager, EXPEC ARC
Saudi Aramco

Suhaileen Bt Shahar

Technical Programme
Co-Chair
Head, Global Exploration
New Ventures

Zeid Ghareeb

Technical Programme
Co-Chair
Reservoir Management
Division Head
Saudi Aramco

Exploration Upstream PETRONAS

"As we continue to emerge from the unprecedented times brought about by the pandemic, the resilience of the oil and gas sector relies more than ever on technological advancements and exchange of knowledge. On behalf of the IPTC Technical Programme Committee, it is our pleasure to invite you to share your technical knowledge by submitting your abstract for consideration in the IPTC 2022 technical programme."

Click [here](#) to read the entire message.

WHY SUBMIT AN ABSTRACT FOR IPTC 2022

Be part of a prestigious, international, multidisciplinary, inter-society oil and gas conference and exhibition

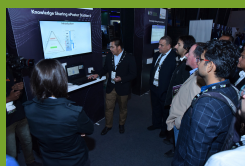

Boost your professional profile at this global event

Contribute to technical knowledge transfer between international experts, regional, and local industry professionals

Share new technologies and best practices with peers from around the world

Have your paper published in the multi-society library, *OnePetro®*

Be part of a collaborative experience for students, young professionals, and the industry to network and discover the activities and opportunities in a global energy hub

DEADLINE EXTENDED—SUBMIT YOUR PAPERS TODAY

About IPTC

Founded in 2005, the International Petroleum Technology Conference (IPTC) is the flagship multidisciplinary technical event in the Eastern Hemisphere. The scope of the conference programme and associated industry activities address the technology and relevant industry issues that challenge industry specialists and management around the world.

IPTC is sponsored by four industry organisations and societies, the American Association of Petroleum Geologists (AAPG); the European Association of Geoscientists and Engineers (EAGE); the Society of Exploration Geophysicists (SEG); and the Society of Petroleum Engineers (SPE).

IPTC is focused on the dissemination of new and current technology, best practices and multi-disciplinary activities designed to emphasise the importance of the value chain and maximising asset value. The knowledge, capabilities and strengths of the participating countries and the sponsoring societies' global membership, over the spectrum of multi-disciplinary technologies, are central to the success of the conference and the corresponding exhibition.

For more information, please contact iptc@iptcnet.org or visit www.iptcnet.org.
