Welcome to the IADC/SPE International Drilling Conference & Exhibition 2022

For more than 30 years, the IADC/SPE International Drilling Conference and Exhibition has established itself as the World's leading gathering to address challenges, deliver improved performance and highlight emerging technologies and practices in global oil and gas exploration and production.

The conference will provide a new and exciting range of promotional opportunities for sponsors and exhibitors to increase brand awareness and thought leadership exposure, to showcase the latest technological developments and to actively engage with trade professionals in real time.

The conference will include the highest caliber peer-selected technical papers in the field of drilling and will bring together leading international operators, contractors and service providers from around the World. The conference will provide attendees with a comprehensive event experience and will include a full conference program with presentations from industry experts and technical authors.

This brochure will help you decide how you can participate. It gives you an outline of who will attend and a variety of ways you can make your company's expertise known to them.

However you choose to take part, you will certainly find your involvement at this in-person event in Galveston, Texas rewarding.

AMPLIFY, ENGAGE AND
CONNECT WITH THE GLOBAL
DRILLING COMMUNITY

BRAND AWARENESS

THOUGHT LEADERSHIP

LEAD GENERATION

Achieve Your Marketing Objectives

COST EFFECTIVE

The conference provides a highly cost effective solution for sponsors and exhibitors to maintain existing business contacts, make all-important new connections and do business with targeted key decision makers.

PROMOTE THOUGHT LEADERSHIP

Position your organization as a progressive industry player at the forefront of digital innovation. Align your organization with the key discussion points and challenges facing drilling in E&P and associate your brand with the highest caliber technical content in the industry.

NETWORK WITH THE DRILLING COMMUNITY

Network face-to-face with business leaders and decision makers and acquire valuable sales leads and client feedback at the largest international event dedicated to the international drilling community.

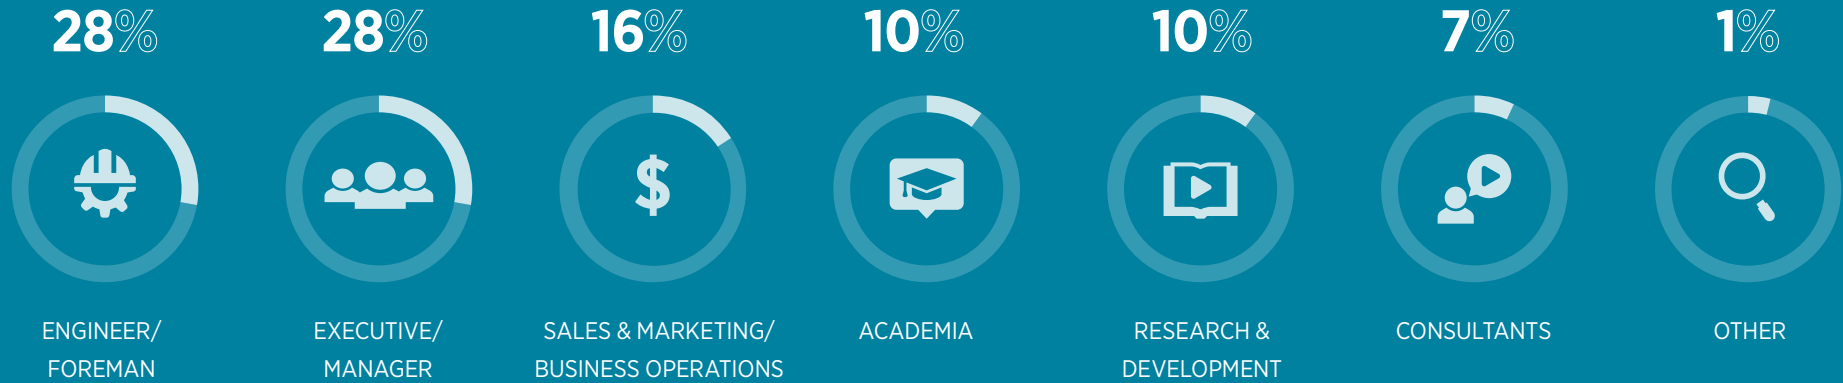

GAIN MAXIMUM BRAND EXPOSURE

Expand your brand exposure to a global audience of drilling professionals through numerous opportunities for logo placement across the website and through the international marketing campaign to over 10,000 targeted potential customers in the run-up to the event.

SPE Tech Talks

With SPE Tech Talks, your company's story and technology take center stage, focusing on your innovations.

This 25-30-minute conversation is hosted by SPE to share your company's story live prior to the conference, and featured on SPE's LinkedIn and YouTube accounts. Have a company executive or SME share the technologies and solutions your company is planning to showcase at the 2022 in-person event. And post-conference, the on-demand video can be used by your company for ongoing content marketing efforts.

SPE TECH TALKS INDUSTRIES INCLUDES THESE BENEFITS

- Company name/logo on promotional graphics for social media
- Company logo on SPE Live weekly promotional emails sent to members and customers
- Company name/logo on LinkedIn event header graphic and description
- Company logo during at least 50% of the Tech Talks broadcasts
- Up to two 30-second video commercials, shown at the beginning and end of the broadcast (commercials provided by sponsor).

About the Society of Petroleum Engineers

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 140,600 members in 144 countries are engaged in oil and gas exploration and production. SPE is a key resource for technical knowledge providing publications, events, training courses, and online resources at www.spe.org.

About IADC

The International Association of Drilling Contractors is dedicated to enhancing the interests of oil and gas and geothermal drilling contractors worldwide. IADC's contract drilling members own most of the world's land and offshore drilling units and drill the vast majority of the wells that produce the planet's oil and gas. IADC's membership also includes oil and gas producers, and manufacturers and suppliers of oilfield equipment and services.
