

# Offshore Technology Conference 2023

1-4 May 2023 | NRG Park, Houston, Texas, USA

2023.otcnet.org

CALL FOR PAPERS PROPOSALS :: DEADLINE FOR ABSTRACT SUBMISSION: 13 September 2022

## OTC ORGANIZATIONS

### Sponsoring Organizations

American Association of Petroleum Geologists  
American Institute of Chemical Engineers  
American Institute of Mining, Metallurgical, and Petroleum Engineers  
American Society of Civil Engineers  
American Society of Mechanical Engineers  
Institute of Electrical and Electronics Engineers, Oceanic Engineering Society  
Marine Technology Society  
Society of Exploration Geophysicists  
Society of Mining, Metallurgy, and Exploration  
The Society of Naval Architects and Marine Engineers  
Society of Petroleum Engineers  
The Minerals, Metals & Materials Society

### Regional Sponsoring Organization

Brazilian Petroleum, Gas and Biofuels Institute

### Endorsing Organizations

International Association of Drilling Contractors  
Petroleum Equipment & Services Association

### Supporting Organizations

American Association of Drilling Engineers  
American Petroleum Institute  
Association of Energy Service Companies  
ASTM International  
Center for Offshore Safety  
Independent Petroleum Association of America  
Institute of Marine Engineering, Science and Technology  
International Marine Contractors Association  
International Society of Automation

Dear Colleague,

On behalf of the Offshore Technology Conference (OTC) Board of Directors, the 2023 Program Committee, and its sponsoring organizations, we invite you to submit a paper proposal presenting your technical solutions, innovations, advancements, and knowledge at the world's largest offshore energy conference and trade show planned to take place 1-4 May 2022 in Houston, Texas, USA.

Since its inception in 1969, OTC has provided a forum to present cutting-edge technologies and innovations, and as we navigate the changing energy landscape, we will rely on the technologies you present to secure a viable future for the offshore sector. To address these challenges, we encourage submissions which align with the following themes:

### The Enhanced Role of Digital Solutions

The OTC Program Committee recognizes the industry focus on topics related to remote operations, minimally staffed facilities, and the enabling role of data management and digital solutions and welcomes those submissions.

- Energy Transition and the Evolving Role of Oil and Gas: Is there still need for exploration?
- Best Practices and Experiences in Lowering Carbon Footprint in Operations
- Large Integrated Major Projects Including Carbon Capture and Sequestration
- Repurposing Knowledge and Experience: Offshore Engineering and Construction; Geotechnical; Metocean and Renewables such as Offshore Wind, etc.
- Business and Energy Investments and New Business Development Opportunities
- Innovation: University Research, Incubators, Venture Capital/Private Equity investments
- Minerals and Materials for New Energies

We look forward to receiving your high-quality submissions that will help shape a vibrant future for the offshore industry and we encourage you to contribute to our world class technical program across a wide variety of topics including:

- Arctic Technology
- Carbon Capture Utilization and Storage

# Offshore Technology Conference 2023

National Ocean Industries Association  
Research Partnership to Secure  
Energy for America

## Call for Papers Topics

Arctic Technology  
Carbon Capture Utilization and Storage  
Decommissioning / Abandonment  
Digital Transformation, Digital  
Technologies & Data Management  
Drilling Technology  
Energy Transition, Renewable Energy &  
Sustainability  
Facilities and Production Operations  
Field Development & Megaprojects  
Floaters and Mooring Systems  
Flow Assurance  
Geoscience  
Geotechnical  
Health, Safety, and Environment /  
Governance & Regulation  
Installation/Construction/Pipelay and  
Operations  
Integrity Management & Life Extension  
Marine Mining  
Materials Technology  
Metocean  
Ocean Engineering Resources, Terminals  
& Transportation  
Offshore EOR and Unconventional  
Resources  
Offshore LNG & Gas Monetization  
Offshore Pipelines  
Project Management, Economics and  
Contracting  
Reservoir Engineering  
Riser Systems  
Subsea Production and Processing  
Systems  
Topsides Production and Processing  
Systems  
Well Completion Technology

- Decommissioning / Abandonment
- Digital Transformation, Digital Technologies & Data Management
- Drilling Technology
- Energy Transition, Renewable Energy & Sustainability
- Facilities and Production Operations
- Field Development & Megaprojects
- Floaters and Mooring Systems
- Flow Assurance
- Geoscience
- Geotechnical
- Health, Safety, and Environment / Governance & Regulation
- Installation/Construction/Pipelay and Operations
- Integrity Management & Life Extension
- Marine Mining
- Materials Technology
- Metocean
- Ocean Engineering Resources, Terminals & Transportation
- Offshore EOR and Unconventional Resources
- Offshore LNG & Gas Monetization
- Offshore Pipelines
- Project Management, Economics and Contracting
- Reservoir Engineering
- Riser Systems
- Subsea Production and Processing Systems
- Topsides Production and Processing Systems
- Well Completion Technology

Please submit your paper proposals online [here](https://www.otcnet.org). Proposals will be accepted through 13 September 2022.

Thank you for your efforts, and we greatly appreciate your continuing support as we navigate the changing energy landscape at OTC 2023.

Sincerely,

A handwritten signature in black ink that reads "Greg Easson". The signature is written in a cursive, flowing style.

Greg Easson  
University of Mississippi  
School of Engineering  
OTC 2023 Program Committee Chairperson

CALL FOR PAPERS PROPOSALS :: DEADLINE FOR ABSTRACT SUBMISSION: 13 September 2022

## THE PAPER PROPOSAL FORM

A proper review of your paper proposal requires that it contain adequate information on which to make a judgment. The maximum word count is 450 words.

- **Objectives/Scope:** Outline the scope and nature of the work upon which the paper is based (e.g., field data, laboratory data, original analysis, or computer work). If the paper is a review paper, carefully state the extent of the coverage.
- **Methods, Procedures, Process:** Describe the possible applications of the information provided in the paper.
- **Results, Observations, and Conclusions:** Summarize the results and major conclusions to be presented in the paper, and state how these differ from previous work on the same subject. State whether new information will be revealed and whether the data from field, laboratory, or computer work will be included.
- **Novel/Additive Information:** Describe any other information that is important to your submission.

## SELECTION CRITERIA

The program committee will observe the following criteria when selecting papers for the conference.

- **The paper must not have had prior publication or circulation.**
- The paper should contain significant new knowledge or experience in some field of offshore exploration and production.
- The paper must be technically correct and should be of interest to a reasonable number of people working in the field of offshore operations. It may be theoretical or present the results of laboratory studies, and it may state or analyze a problem. The paper may also be a review paper but must be of significant value to the technical field.
- The paper may present information about equipment and tools to be used in exploration and production. Such papers must show the definite applications and limitations of such equipment and avoid commercialism and the use of trade names.
- **The paper proposal should have the necessary clearance before it is submitted to OTC. Prospective authors should advise of any clearance problems when the paper proposal is submitted.**

## PREPARATION OF MANUSCRIPTS

A manuscript will be required for the conference per the OTC policy of "no paper, no podium." Manuscripts will be included on the digital proceedings, available for purchase at the conference.

- Complete instructions on preparation of manuscripts and visual presentation material will be made available electronically to authors of accepted proposals.
- All papers presented at the conference will be copyrighted by OTC.
- **Do not use trade names, company names, or language that is commercial in tone in the paper title, text, figures, and presentation materials. Commercialism in papers submitted for the digital proceedings may be cause for removal of the paper from the program.**
- The paper must be written in English.
