OTC ORGANISATIONS

The Offshore Technology Conference (OTC) events around the globe, including OTC Asia, are brought to you by 12 sponsoring non-profit academic, scientific, and professional organisations dedicated to the advancement and diffusion of scientific and technological knowledge of offshore resources and related environmental matters.

Income from this event is invested back into these sponsoring organisations' industry and community outreach programmes. These activities provide opportunities for industry professionals to enhance their technical and business competence, and to promote education in areas to advance the offshore energy industry.

JOURNEY TO THE ENDLESS POSSIBILITIES

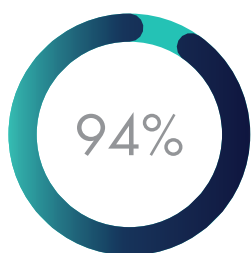

At PTTEP, we rise to the challenge of balancing energy security and sustainability. Our unwavering commitment drives us to secure the energy needs of today while safeguarding the future for generations to come. As we navigate towards a low-carbon organization, innovation and determination power our quest for a cleaner and more sustainable world. Join us on this transformative journey as we pave the way for a brighter tomorrow.

DISCOVER OTC ASIA

The Offshore Technology Conference (OTC) is where energy professionals meet to exchange ideas and opinions to advance scientific and technical knowledge for offshore resources and environmental matters.

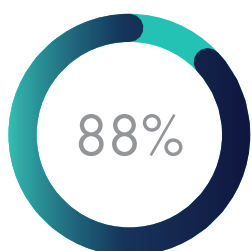

Founded in 1969, OTC's flagship conference is held annually in Houston. OTC is sponsored by 12 industry organisations and societies, that work cooperatively to develop the programme each year. OTC has expanded technically and globally with other flagship events including OTC Asia.

ASIA PACIFIC'S PREMIER OFFSHORE ENERGY EVENT

OTC Asia's vision and mission is to:

- Meet the demand for business and technical information to support the growth of the offshore energy industry in Asia Pacific and internationally.
- Provide opportunities for industry and professionals to share applied technologies and best practices industry-wide and globally.
- Together with industry, promote sustainable practices and solutions as we transition into a lower carbon world.
- To create opportunities to institute and strengthen interdisciplinary collaboration and cooperation in Asia Pacific.

Let's not just attend; let's become
architects of an energized future.

Leaders of Tomorrow

Strategic Programme

The Strategic Programme will bring together some of the most influential leaders, experts, and decision-makers in energy with a focus on key themes such as the energy trilemma, digitalisation, business models, financing, sustainability and the future of energy.

Energy Evolution Exchange Programme

The Energy Evolution Exchange Programme will focus on conversations related to decarbonisation, net-zero solutions, future energy, digitalisation, hydrogen, LNG, PNG and maritime.

Technical Programme

The Technical Programme is a platform to share technical knowledge, present research findings, and discuss the latest advancements in offshore energy and will feature expert panel discussions and a range of technical sessions covering a wide variety of topics related to offshore technology.
