

# The GREY EADL

ILLUSTRATION, CARDS + GIFTS

Hello there,

I am The Grey Earl (also known as Jon),  
a full time illustrator and tea drinker, making  
work, somewhere in the hills of rural Scotland  
(how mysterious!)

Welcome to my catalogue of work, which  
includes my entire range of greetings cards  
and gifts, *'with a distinct sense of humour  
that appeal to both children and adult alike'*

I am a proud supporter of home grown businesses and can happily say that all  
of my printed products are sourced from suppliers around the UK.

As well as trying my best to keep as much manufacturing as possible on these  
shores, I am also on a mission to use the most environmentally friendly production  
methods and materials possible. I am very pleased to say that all of my greetings  
cards and envelopes are made from 100% recycled papers (the power used to  
make them generated by wind farms no less!) and the plastic sleeves are made  
from corn starch which are fully biodegradable, so you can throw them in your  
compost bin hassle free, safe in the knowledge it isn't going to end up in the sea  
or building up in landfill, good news all round!

If you would like to find out more about my work, please do get in touch.

# DELETED SCENES

DELETED SCENES is the card collection designed especially for lovers of the movies. Iconic scenes in film from the 70s, 80s and 90s have been given The Grey Earl treatment and injected with a little bit of humour.

Launched in 2020 these cards have been extremely popular and the designs keep coming with new cards and gifts on the way!

The cards are printed in the UK on 100% recycled paper and the sleeves they are supplied in, are fully biodegradeable and can be dropped into the compost. Available with bio sleeves or naked, secured by a kard kasp.

# STARS ARE BRAW

**Stars are Braw** is a collection of cards and gifts that celebrate a rather famous Science Fiction franchise, featuring force ghosts, pointy eared aliens and hunks of junk.

These cards were designed in Scotland and use the national dialect along with popular phrases from the films.

English translated versions are now available for the most popular designs making them suitable for shops both across the UK and in galaxies far, far away.

Whether you're a fan of BOJO or not, these designs offer a much needed bit of laughter for a politically fatigued nation.

The cards are also popular with Scotland's First Minister, Nicola Sturgeon, who received one for her birthday, which led to much coverage in the press!
