JEWELLERY HANDCRAFTED IN SCOTLAND

*from rare and recycled materials too good to waste...*

CE N'EST PAS UNE PALETTE DE PEINTURE...

TOP   
Brass  
Lapel Pins

**With our busy lifestyles and work schedules it's often easy to fall into making do with mass manufactured goods, but why settle for something mediocre when you can have something magnificent and Milomade!**

This collection started life as a funny little side-shoot product for an exhibition and there were only 4 designs initially. They were so popular that this funny little idea soon developed into a full cohesive range.

My Top Brass Lapel pins are grouped into three mini collections. I have a set of quirky lapel pins full of humour, a set of speech bubble lapel pins with lots of regional variations and also my ever so popular #Hashtag lapel pins which are totally customisable with whichever hashtag you'd like.

All of my brass lapel pins are individually handcrafted with love and skill from thick brass sheet industry off-cuts and it's very clear in this instance, that one man's trash is definitely another man's treasure.

## TOP BRASS LAPEL PINS - QUIRKY

The set of pins below are the 'QUIRKY' range and include the paint palette pin featured on the front cover which comes as either a smooth flat palette, or with dimpled impressions for paint. So there are 9 Quirky pins in total.

WE'RE JAMMIN'...

SEALED WITH A KISS...

HERA, GIVE ME STRENGTH...

FANCY PANTS...

NO STRINGS ATTACHED...

BELIEVE IT OR NOT...

## TOP BRASS LAPEL PINS - SPEECH BUBBLES

Speech bubble pins began with just the 'arse' and 'feck' pins as I'm a huge fan of the TV series Father Ted. Requests for other words soon followed and a mini spin off collection of speech bubble pins emerged. Speech bubbles can face left or right.

### TOP BRASS PLANT MARKERS

These funny plant markers are new to my range of decorative pieces made from recycled materials. I work with industry off-cuts of brass, so it's someone else's waste which I think, quite frankly, is too good to waste. Like my brass pins, they are all individually hand cut and stamped, so they've all got a lovely handcrafted feel and look about them.

Soldered onto thick copper wire stems, they can be poked into any plant pot and would make a perfect gift for the green fingered, gardening obsessed, plant lover in your life.

**There are currently 10 different Plant Markers and they each retail at £8.**
