FOR THE PLANET

We understand how much you care about the environment, that's why our packaging can be recycled at home or at your local centre. But we want to go further. We are working towards introducing FSC cardboard and recycled plastic across the range. These are big changes, and we promise to keep you updated as we strive towards our goals.

How it all started

Our story begins in an incredibly small kitchen in Alloa, under the shadow of the Ochil Hills. Initially, all we wanted to do was create traditional, delicious, quality hand beaten fudge. We've stuck with that idea ever since.

We began with what we knew best, traditional Scottish Tablet and Fudge, but we knew we wanted more, and we had a desire to be different. We became masters of invention, experimenting with our own concoctions, trying to create something never seen or tasted before!

Our experiments with some wild and wonderful flavours created some amazing fudge. Through trial and error we managed to curate a range of unique flavours. We never stopped and have since grown our selection of luxurious flavoured fudges to over 30 flavours and counting.

OUTSTANDING QUALITY AND TASTE

Our hard work has paid off with multiple Great Taste awards for many of our fudges over the years:
