

Current and upcoming products:

Current Products:

Repellents:

Our most popular are our spray variants

Midge Magic insect repellent and Tick Magic insect repellent, both available as pump-spray bottles (no aerosols, so travel-friendly)

Our original lotion varieties:

These are based on a natural skin moisturiser, no reason that it can't be good for you whilst it keeps insects away.

Tick removers:

Well, sometimes you forget to put on your repellent. Midges are bad, but Ticks are just awful, so here's some branded removers to get them safely out of anyone they've bitten into.

Twist hooks removers, packet of two:

Or the safetycard style of remover, with two different sizes of notch, and a built-in magnifier to check bite areas:

Upcoming Products:

We will be launching our range of insect-repellent candles at this year's show!

Please feel free to stop by and have a look, we will update with images as soon as the prototypes are in our hands!
