## Plantable Cards

Scribe and Grow started with fun and thoughtful greeting cards, cards you can plant after use...how cool is that!?

Based on the Isle of Skye all our cards are made with paper packed full of bee-friendly flower seeds and made from 100% pre-consumer recycled cotton.

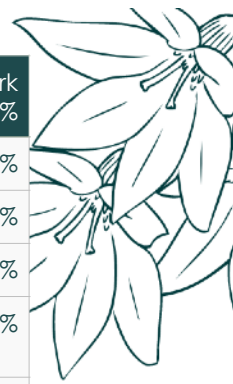

Each card is packaged in a bio-degradable, compostable sleeve and kraft paper envelope.

Fancy something you can't see on our website? We work with stockists to meet their needs - new designs and exclusive prints available.

All designs are licensed for commercial use.

## Grow Candles

Our Grow Candles are hand poured on the Isle of Skye using eco soy wax, in 20cl tins with lids.

All four scents are inspired by the Isle of Skye, its beautiful landscapes, fairy tales & weather.

**Bothy Ballad** - smokey whiskey & chocolate

**Fairy Glen** - Sparkly, sweet & powdery

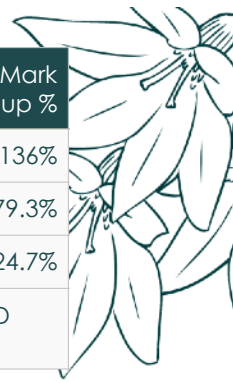

**Raspberry & Peppercorn** - Fruity & fresh

**By the Fire** - intensely rich and full bodied

Grow Candles are a zero waste product, which enables the consumer burn the scented candle and then plant basil infused paper which comes inside every candle. Just wash the tin out and use it as a plant pot.
