THE CAMPAIGN FOR WOOL

ABOUT US

'The introduction to knitwear in our family started during the war as a postman in a small village on the outskirts of Leicestershire began to provide families with not only their mail but with classic British wool knitwear during those harsh winter months. Many years after, he then started production on a much larger scale on several traditional knitwear styles using pure British wool to supply a number of high street retailers many of whom are still around today.

Carrying on that legacy, J M Cooper Knitwear offer a full range of knitwear styles including ladies, men's, children's and a variety of accessories. All our products are made from 100% British wool within our factory situated in Barwell, Leicestershire in the heart of the UK. Our British wool is sourced locally from a long-established British yarn spinner nestled in the outstanding rugged moors and beautiful valleys of Saddleworth, located within the Pennine Range. The yarn we use is natural and kept in the best quality to provide exceptional style, comfort and warmth in all our products.

Along with our stock list products, J M Cooper Knitwear have now become the leading manufacturers in bespoke design for both British and Merino wool. With an on-site design and sample team using the latest technology, we can produce high quality garments to meet any requirement.

Using the latest Stoll CMS 502 multi-gauge flatbed 5g and 7g knitting machines, we are able to manufacture around 1500-2000 garments each week using sequential knitting techniques. Our extremely skilled team of passionate knitters ensure every garment that leaves our factory is of the highest quality with short lead times.

As a company, we are proud to be located in several countries across the globe providing online retailers, high street stores and independent outlets with both our bespoke designs and classic country wear styles from our stock list.

Glenloch knitwear, our Scottish Heritage brand, supplies the Scottish mainland and highland with contemporary knitwear and heritage designs.

COLLECTION

MADE IN THE UK

Guernsey Unisex Crew Neck Jumper, 100% British wool

Originating from the Channel Islands, the traditional guernsey has been worn for centuries originating from the Channel Islands. Hand knitted by fishermans' wives to protect them both from the cold and sea spray. Our Polperro guernsey keeps within the classic design and techniques to bring a touch of heritage to any line of knitwear.

Unisex Breton Sweater

Our Unisex Breton is perfect for both genders with a timeless Nautical theme providing excellent warmth and style.

Submariner Jumper 100% British wool

The Submariner jumper originally supplied to the Royal Navy and now developed into an iconic British sweater. With its roll neck, deep hem and cuffs this garment is able to provide warmth, comfort and style perfect in cold conditions. As with all our products, these are manufactured from 100% pure British wool from sheep roaming the Pennine Hills.

CODE SS2401
