

EST. 1987

A woman with dark, curly hair is shown from the chest up, looking off to the side. She is wearing a wide-brimmed hat with a brown, tan, and red plaid pattern. A matching plaid scarf is wrapped around her neck. She is also wearing a thick, brown, textured knit sweater. The background is a soft-focus landscape of rolling green hills under a cloudy sky.

# A lifetime's experience in wool and sheepskin

Glencroft is a proudly British brand of trustworthy countrywear made from natural materials.

Established in 1987 in the heart of the Yorkshire Dales we take our inspiration from the surrounding countryside and way of life. You won't find us on any catwalks but you will find quality affordable timeless products, in both traditional and contemporary styles.

We manufacture the majority of our range right here in the UK, with a small amount made in mainland Europe. Many of our products have been manufactured by the same people and in the same way for over 35 years.

Our experience sourcing and manufacturing British wool, Harris Tweed, sheepskin, cashmere and other natural fibre products ensures a high quality that lasts many years.

We'll tell you where everything is made and what it is made from to ensure an ethical supply chain from sheep to jumper or slipper wearer. In 2022 we created our very own traceable Clapdale wool yarn from local sheep, a project we will expand in 2023 with more yarn colours and tweed cloth.

We pride ourselves on being a trusted trade partner to retailers providing exemplary customer service, personal sales visits, quick stock turnaround, product support and a lovely cup of tea and biscuit if you come and visit us.

## A Personal Service

Ring us in our 200 year old converted limestone barn and you'll speak to Richard, Justina, Edward or Rose. Richard Sexton has worked in the wool and sheepskin industry since the 1960s and still hand finishes all our sheepskin rugs to this day. Edward is encouraging his parents to slow down a little bit and ensure we're fit for the next 35 years of business.

We work with small independents, large national chains, and international buyers and retailers. Big or small we provide the same consistent service, contact us to find out more.

Wool and sheepskin contains lanolin, a natural oil which can help to protect and make your skin soft. It also gives wool that distinctive smell – we love it.

Using 100% British Wool yarn and tweed has been an important part of our business since we began 35 years ago and we’re proud to manufacture all our jumpers right here in Britain.

However we’ve always wanted to go that step further, and so in 2021 following a grant from the Yorkshire Dales National Park we launched our Clapdale Wool Project. This innovative project used wool sourced from two farms within 5 miles of Glencroft’s warehouse. We used all the breeds in these fields – Dalesbred, Teeswater, Texel and Blue Faced Leicester – to produce a wool that directly relates to the local area. We also hope to kickstart a circular economy for wool by paying farmers more for their fleece than they currently get plus an additional 10% of profits.

The wool has been sorted, scoured, carded and spun in Yorkshire to produce a DK yarn that knits beautifully and a lace-weight 2-ply yarn. In 2023 we have expanded the project to include seven local farms and we intend to produce both finished garments from our yarn and a world first 100% Dalesbred woven tweed cloth.

Traditional and hardy: Teeswater sheep, whose soft fleece will be blended with Texel and Dalesbred breeds to create a unique yarn.

STANDARD / LARGE

\* All our rare breed rugs are natural and undyed. As such, colours vary from off white to almost black and every pattern in between.

Glencroft Rare Breed and Natural sheepskin rugs come from British sheep. These sheep are from farms across the British Isles where they have been free to roam the countryside and eat the grass. Sheepskins are tanned in the UK and every single Glencroft British sheepskin rug is then hand finished by Richard in our Yorkshire Dales warehouse.
