

HONEYBERRY GIN

38% ABV | Flavoured Gin

Small batch Distiller's Edition Gin, a bespoke mix of botanicals and honeyberries, meticulously selected by Master Distiller Duncan Morrison, is slowly distilled before resting in a vat for 3 weeks, with copious amounts of honeyberries, to create a heavenly sipping gin or a fantastic base for cocktails.

"Bursting with flavour, Roehill Springs Honeyberry Gin is delicious served neat over ice. It has a lovely gin base and the flavours are extremely decadent. Perfect for sipping on cold winter nights; served long on warm summer days with ice & tonic; or with ice & ginger ale. Love it!"

About Roehill Springs Distillery

Roehill Springs is a small artisan Distillery, established by husband and wife, Duncan and Shirley Morrison, and based in a re-purposed building on the third generation, family-run farm in Moray, Scotland. The distillery overlooks the Roehill Spring where they source the pure, natural spring water used in the distillation process and in the reduction of the spirits.

Distillation, bottling and labelling is all done by hand on-site at the distillery by Duncan and Shirley along with some helping hands from other members of the family.

Master distiller Duncan has spent his working life in both agriculture and distilling. He spent 15 years working as a stillman with a leading Speyside Malt Whisky Distiller, gaining the Institute of Brewing and Distilling's General Certificate in Distilling.

With a shared love of a good gin, Duncan and Shirley established Roehill Springs Distillery in 2019 and launched their signature Gin No 5 in August, 2019. Since then, the distillery has released a number of gin expressions and gained a number of high profile industry awards from well respected international gin competitions.

ROEHILL SPRINGS

DISTILLERY

SMALL BATCH
PREMIUM SCOTTISH GINS

GIN NO. 5

43% ABV | London Dry

Roehill Springs Gin No 5 has a classic juniper forward flavour profile, followed by bold citrus, sweet floral notes and a beautiful, smooth mouth feel. Carefully distilled using water from our own private Roehill Spring and a curated selection of botanicals including juniper, coriander, angelica root, cassia bark, pink peppercorns and a selection of locally foraged botanicals which we like to keep secret.

Awards: Gold IWSC 2021 • Silver ISC 2021
1 Star Great Taste 2021 • Finalist Scottish Gin Awards
2020 & 2021

BLUE

40% ABV | Flavoured Gin

Features Gin No.5 as the base gin, with the addition of butterfly pea flower botanical. The use of this botanical not only adds some floral notes to the nose and palate and a sweeter finish, when the gin is mixed with tonic it changes from blue to a purple-pink thanks to a reaction between the gin and mixer.

"Really enjoyed this gin in a G&T. Lovely gin flavour with some sweetness and floral. My friends were amazed when we added the tonic water to our glasses and the colour changed from a deep blue to lovely pink hue."

NAVY STRENGTH

57% ABV | Navy Strength Gin

Roehill Springs Navy Strength is a powerful, bold, aromatic gin, with an ultra-smooth, refreshing finish. On the nose juniper leads, followed by rich orange and a hint of pepper from the pink peppercorns. The palate is Juniper led that transitions to subtle hints of earthiness from the angelica root and a bitter, yet sweet finish from the orange peel.

Awards: World Gin Awards 2022 -
Best London Dry Gin in Scotland
