COSMIKA GOSWAMI, PHD

I have a passion for arts from childhood. I am now putting my passion in practice by doing three dimensional (3D) paper-based quilling art which is influenced by nature specially animals, flowers and by still life objects with modern contemporary twists. I love blending art with mathematical patterns and am very fond of vibrant colours that makes the art radiant and luxurious and pleasing to our eyes.

ART MATERIALS:

I work with artist paper of various thickness and from different brands e.g., Daler Rowney, Fabriano among others, which are acid free to prevent paper from fading and yellowing over time. I also use coloured quilling paper cuts and strips, PVA/tacky glue and quilling tools to create my artworks.

ART CATALOGUE
