46 areas available!

Bespoke

Did you know that we offer a bespoke service? Many of our customers have told us that being able to offer both regional and bespoke products that are only available for them has been an incredibly successful venture at a time when offering something different is more important than ever.

Recent improvements in digital printing, combined with our superb network of UK suppliers now allows us the flexibility to offer bespoke products to both customers large and small.

In its simplest form, we can take an existing design or image from our latest catalogue and add design elements, such as a place name on the front, or reformat an area design so that your local image becomes the main design feature and then apply that to greeting cards, postcards, coasters, magnets etc. (Please note that we cannot use Shelly Perkins' designs)

If you want something completely new and unique- we can design an exclusive range for you to include pretty much any mix of products including fabrics, melamine, general gifts, cards, prints and stationery. Subject to achieving the minimum quantities on each product, we aim to achieve the same cost price as our stock ranges and that includes all artwork and set up costs.

Tea Towels are always a best seller!

Abigail Mill Tweedies

Manufactured here in the UK- our 100% cotton, 48 x 76 cm, screen printed tea towels are quite possibly one of our best selling products.

We keep our manufacturing costs down by not packaging these with plastic bags or 'belly banding' them, instead they are sent rather like a ream of paper, each has it's own swing tag- leaving you to fold how best to suit your displays.
