*Chocolate Tree's Unique Designs*

On our bean to bar chocolate packaging and chocolate bars you will find the tessellation artworks of our head Chocolatier Friederike Gower. These mathematical creations are animals and plants to represent the origin of the cacaos and the chocolate makers. Our chocolate bars feature a llama, monkey, unicorn, trouplial, thistle and toucan!

## Hot Chocolate Flakes

These single origin organic flakes are ideal for melting into your favourite milk; dairy or plant based. Like our chocolate bars all our hot chocolate flakes are made from organic agroforestry cacao traded directly with the cooperatives at origin.
