

WEST BYRE

Apothecary

Wholesale Catalogue 2023

About Us

Hello!

Welcome to our first ever wholesale catalogue! Now in our second year, West Byre Apothecary is a home fragrance brand that is growing from strength to strength. We are stocked in stores and hotels across Scotland.

Just over two years ago, Angus (my westie) & I, moved from the east coast of Scotland to the west to live with my partner. We live on a farm and our house is built in place of the old byre (Scots for farm shed). I was inspired by the move to do something I have always wanted to do, create a home fragrance brand and so West Byre Apothecary was born.

We combine our love of home fragrance with encouraging our customers to relax and recharge.

We combine our love of home fragrance with encouraging our customers to relax and recharge. All our scent names are inspired by methods of self-care. Our customers either choose a scent that they love or choose a scent based on the self-care need. Either way they will fill their home with an elaborate, fragrant aroma.

Designed to provide a luxury, classic yet homely feel. Our products are handmade, plastic free & eco-friendly.

From making candles on my kitchen table to soon to be moving into our own workshop...

shows that this brand resonates with our customers.

To the stockists that carry our products already, thank you, I trust this catalogue makes it easier to place an order with us. If you are discovering our products for the first time, I hope this catalogue provides you with a feel of our brand. It has been an exciting journey so far and I wish for you to join us.

If you would like to try our scents before purchasing, email me (email on page 11) and I can send a sample pack for you to try!
