WHAT WE DO

We are Neil and Rachael, a husband and wife team who got married in 2016 and can still recall the excitement of planning the day, the day itself and all the memories that were created with friends and family. We've taken inspiration from our own wedding day to create a range of wedding gifts and favours, which we design and make in our home-based workshop in Glasgow, using sustainably sourced woods and environmentally friendly methods.

We have a variety of handmade gifts that would be perfect for the happy couple, wedding party and guests, specialising in personalisation and bespoke items that are designed specifically for you. As a starting point, we have included some examples in this brochure, but do get in touch to talk to us about your own ideas and how we can help to make your special day even more special.

From a single gift to bulk discounts on wedding favours, we are flexible and approachable, and yes, there is free UK delivery on everything!

OUR DESIGNS

Since we do all our own designs, there really is no limit to what we can do! We have created a range of decals based on the flower emblems of the four nations (Neil is Scottish, and Rachael is English, so the thistle-rose is perfect for us!), and a heart-infinity symbol for eternal love, but if you'd like bells, champagne flutes, or, well, anything, we should be able to do it! We can also use any font you'd like, just let us know. We'll create a draft of your design for you to review and tweak before we make anything, so plenty of options to make sure it's absolutely perfect!
