# INFORMATION

## THE BRAND

Caitlin Hegney is an artist jeweller making silver jewellery that resonates with the ancient past, designing her collections in the tranquillity of her home studio in Helensburgh, Argyll, on the West coast of Scotland. Caitlin looks for rhythms and patterns that transcend ancient times, interpreting them for the present day. Drawing is at the roots of her practice. She uses hand-made tools to translate the expressive quality of her sketches into precious metals.

## THE JEWELLERY

All products are made in 925 sterling silver.

All work over 7g is hallmarked by the Edinburgh Assay office for quality assurance.

Designs that are available in various finishes are listed as such:

- GP = Gold Vermeil - polished 925 sterling silver with 2 micron layer of gold plating
- S = Polished silver - 925 sterling silver to a polished finish

## JEWELLERY CARE

As a Caitlin Hegney Jewellery retailer, you should always let your customers know how to take care of their jewellery. Precious metal jewellery will tarnish over time due to exposure to oxygen. However, designs can always be cleaned, polish and gold plated again. It is always recommended to remove jewellery before showering, swimming, sunbathing and cleaning. Jewellery can be cleaned with warm water and a mild detergent and can be polished from time to time with a jewellers cloth. It is always recommended to go to a jewellers to get jewellery professionally cleaned. Keep jewellery out of reach of small children.
