BOG MYRTLE & FRESH MINT

An ever so Highland scent, with musky bog myrtle from the glens, fused with some fresh Scottish mint leaves. Camphor and juniper berry hints have been added to create a pleasant middle note, adding to the fresh fragrance.

HEATHER & WILD BERRIES

Our heather & wild berries fragrance is a subtle mix of flowering Scottish heather complimented by carefully selected sweet oils. It's the mix of blueberries, blackberries and raspberries that give it a distinctly warm feeling.

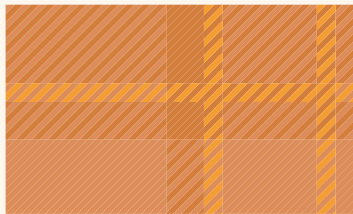

HEBRIDEAN BREEZE

This fragrance with its herbaceous notes of nettle, sea kelp and wild mint blend beautifully with the soft scent of sand dunes and the spray of sea air which will transport you to the untouched, windswept beaches of the Hebrides which are surrounded by the wild Atlantic.

HIGHLAND GORSE

Bring the scent of a Highland spring in, with our fresh sweet gorse fragrance. Combining warm sweet balsamic floral and green herbaceous notes that rest on a base containing scots pine, cedarwood and amber.

ISLAND WHISKY

The warm, inviting essence of Island Whisky comes from a unique blend of fragrances that evoke the spirit of the finest of Scottish drams. With base notes of oak, musk and vanilla that lead to mid notes of cinnamon and then culminate with a light fruity touch, it is sure to help you relax and unwind.

MACHAIR FLOWERS

The floral notes of our Machair fragrance come from the colourful wildflowers native to the Hebrides of Scotland. Subtle hints of kelp harmonise with harebell, gentian, orchid and bluebell, to create a botanical scent inspired by Scottish shorelines.

RASPBERRY & WHITE GINGER

Get fruity with our delicious, slightly spicy Scottish Raspberry fragrance. This rich fragrance marries the delicious scent of Scottish raspberry with the warm spices of white ginger and a touch of cinnamon bark, all balanced out with sweet vanilla.

SCOTS PINE

A fresh and woody fragrance from the forest with a heart of scots pine, bog myrtle and rosemary. The base is soft and comforting while top notes of peppermint, orange and patchouli ensure this scent will invigorate and refresh.

SCOTTISH BLUEBELL

This beautifully delicate fragrance has musky undertones with rich top notes of galbanum and jasmine to create the perfect spring time scent that's sure to help you unwind.

WILD MOUNTAIN THYME

A fragrance inspired by the wilderness of the Scottish mountains. The fresh herbal blend of thyme and petitgrain with base notes of orange and rosemary are balanced out with galbanum and woody notes of pine.

CANDLE ACCESSORIES

Wick Trimmers (CA-WT)

Weight: 160g

Dimensions: H 180mm • W 75mm • D 35mm

Our wick trimmers are the best way to keep your candles in their best condition whilst keeping your hands free from soot.

By trimming the wick after each burn to about 1/4 of an inch, you can ensure the flame won't give off as much smoke and will prolong the burn of your candle while enhancing the fragrance release. It's the perfect accompaniment to your Skye Candles.
