

# Jackton Art

Contemporary art prints and gifts  
celebrating Scotland's buildings and places

Artwork Range - Spring 2025

We are a family business, started during lockdown 2020, and based in the village of Jackton, Lanarkshire

Jackton Art started one rainy Sunday. I drew the church where my parents married as an anniversary gift. The reaction was amazing, “You drew this? Really?!!”

The idea of Jackton Art was born to produce drawings of Scotland that bring back memories and emotions of special places.

David is the artist, drawing highly detailed pen and pencil drawings of Scottish places. Natalie is our digital Artist, adding coloured backgrounds and effects to give our work a contemporary feel. Frances runs much of the operational side of the business in between lecturing at our local college.

Thanks for coming with us on this journey.

David
