

SHADOW SHAPES

WHOLESALE CATALOGUE

JULY 2024

The Shadow Shapes journey began early in the time of Covid when we diversified our business activities and created the Toppers range from recycled plastic – initially for dogs and cats. We are a small family business with a passion for designing and making eco-friendly unique decorative pieces – Toppers for doorways, screens or pictures. We continue to develop our range and are happy to work with local and regional retailers to develop specific designs to suit their market.

Where to put Toppers!

Shadow Shapes Toppers are lightweight so they can be safely placed at height – over doorways, on computer monitors or TV screens and over pictures or mirrors. Some small pieces of putty adhesive (Blu Tack, or similar) can be used to keep our toppers in place where necessary.

The sets are packaged in a lightweight recycled cardboard box that is post and travel friendly. The set components are easily assembled without any need for tools.

Product Dimensions

Heights vary with each product, height of base rails are 5mm

Large letter size packaging
Easy for posting or packing
in luggage

What's in the box?

Some assembly is required but no special skills or tools are needed. For sets with multiple base rails, the rails connect with a close neat jig-saw joint and the silhouettes simply slot in place.

The narrow base-rail design enables the assembled Topper to be placed in unconventional and eye-catching places. So, its easy to share your pets, pastimes or passions with friends, family or work colleagues.
