SS25 COLLECTION

SUSTAINABILITY

At Failsworth we fully recognise our responsibility to the environment and our impact upon it. We are committed to sourcing from more sustainable sources with proven environmental and social impacts.

BETTER COTTON

We have been working towards converting Cotton used in our products to be sourced through Better Cotton, Cotton production that uses more water-efficient processes and fewer chemical fertilisers and pesticides.

POLYESTER

Most of the Polyester used in our products is certified recycled to industry standards and traceable against a chain of custody model.

RESPONSIBLE WOOL SOURCING

We use animal derived raw materials such as wool from reputable, long established vertical UK woollen fabric manufacturers. It's naturally renewable, biodegradable and recyclable, breathable, wind and waterproof and flame resistant, all without the need for additional finishes.

RESPONSIBLE LEATHER SOURCING

We are committed to supporting Responsible Leather Production across the globe. We source all our Leather from Leather Working Group (LWG) certified tanneries.

LADIES
