# THE SOFASOY STORY

Sofasoy Candle Co was founded in 2020 by couple duo after struggling with their dog's allergic reactions to candles and other scented products in the home.

As candle lovers, it inspired them to create their own home fragrance products to ensure they were safer to use around beloved pets but also safer for humans and the environment too!

All Sofasoy products have undergone vigorous study and testing using the purest soy wax and paraben free oils at unique percentages and temperatures to ensure low toxicity while still producing a strong fragrance. This special formula vastly reduces the chances of allergic reactions happening to you, your family and your pets. Sofasoy Candle Co believe that you dont have to compromise style when choosing an eco friendly product, which is evident in their luxurious and unique packaging; incorporating a beautiful soy plant design on each product box in the colour that reflects the fragrance.

Their home fragrance store is based in the beautiful coastal town of Stonehaven, Aberdeenshire where they lovingly hand-pour all their candles and craft beautiful products for your home.

Made with 100% soy wax, which is natural, renewable, cruelty free and vegan friendly. It also has the added benefit of being safer and non toxic when burning around pets.

## GET IN TOUCH

**Sophie Hammond**  
**Founder**

Sophie runs the business day-to-day and leads on product development. As the chief candle maker she spends most of her time in the workshop, crafting beautiful sofasoy products in Stonehaven by the sea. Sustainability is important to Sophie so she continues to look for ways to live and work in harmony with both our pets and the beautiful planet around us.

**Peter Hammond**  
**Brand & Business Development**

Peter leads brand, marketing and business development for the business. He has led and continues to run many successful businesses and uses his knowledge of consumer trends together with his entrepreneurial experience to influence his business decisions. Peter oversees all aspects of advertising projects, product design and production.
