TOTAL WARDROBE CARE

LEADING THE FIGHT AGAINST CLOTHES MOTHS NATURALLY

TRADE CATALOGUE

About us

With a degree in fashion design and exceptional tailoring expertise, Julia Dee, the founder of Total Wardrobe Care, brings unparalleled knowledge to the care of clothing and home textiles.

Our British-crafted, eco-packaged Anti-Moth Tool Kit is a carefully curated collection of natural products. Designed to work together in multiple combinations, it effectively eliminates clothes moths, protects garments, rugs, and home textiles, and keeps them fresh and free from damage. For over 21 years, we've been trusted to safeguard both historic properties and modern homes.

Julia has dedicated her life to sourcing and creating natural solutions for clothing and textile care, and her journey is far from over. The satisfaction of helping thousands of clients overcome moth infestations drives our ongoing search for innovative tools and techniques to ensure long-lasting protection.

Our products are carefully selected for their natural properties and distributed to homes across the UK. We treat our customers' wardrobes and home textiles—including rugs and upholstery—with the same care as our own. Every bit of our expertise in textile care and moth prevention is infused into our products, ensuring you simply need to order and set them up in your space. As our customers often say, "And they work."

We're always open to new ideas!

“With the threat of moths and the damage that they can do to handmade rugs and carpets, we thought it best to find a line of products that were natural and didn’t cost the earth. Total Wardrobe Care’s range of Chrysanthemum based sprays and moth boxes work just as well as their chemical counterparts! The steady increase of moth issues from our long-time customers made us think about a solution that we could provide to neutralise the problem, and after consideration, TWC was the perfect fit for us. The service and staff are friendly and efficient, helping us with the B2B side of things too!”

Anti-Moth Products

Moth Box

Our effective Moth Box Trap, a non-toxic solution that attracts male clothes moths with a female pheromone-impregnated adhesive strip. This chemical-free alternative to insect control traps and kills moths, providing year-round protection for your customers' spaces.

Moth Box Refills

Offer your customers a pack of 2 refills for our Total Wardrobe Care Moth Box. These adhesive sheets, replaced every 12 weeks, work seamlessly with our Moth Box to ensure continuous monitoring and effective moth control, making it the perfect partnership for long-lasting protection

Chrysanthemum Spray

Introduce your customers to an environmentally friendly solution with our Chrysanthemum Moth Spray. This fresh, fragrant formula is a highly effective natural alternative to chemical insecticides, killing eggs, larvae, and moths. Ideal for treating furniture, carpets, wardrobes, or entire rooms, it offers powerful protection while being safe for the environment.

To help your customers identify clothes moth infestations, recommend placing our Moth Box under a piece of furniture (not inside the wardrobe) or in a quiet, undisturbed area. The speed at which the box fills up will give an indication of the severity of the infestation.

Our pheromone adhesive lasts for up to 3 months, and our convenient refills are a perfect way to encourage customers to maintain consistent moth control.

Stocking these products allows you to offer your customers an effective solution for ongoing moth prevention and protection.
