

IVA PLANTS

INSPIRED BY NATURE, PERFECTED BY HAND

ALWAYS FRESH | ALWAYS NATURAL

ABOUT OUR COMPANY

**CRAFTING TEAS INSPIRED BY NATURE,
PERFECTED WITH CARE**

At IVA Plants, we are committed to blending tradition with sustainability to create teas that delight the senses.

Founded in 2024, our mission is to bring the finest herbal and artisan teas to discerning customers. Each blend is a testament to our dedication to quality, handpicked ingredients, and eco-conscious practices.

We work closely with small farms in the UK, Sri Lanka, and Japan, where every leaf and herb is cultivated with respect for the environment and the local communities. From farm to cup, our teas are a celebration of nature, crafted with passion and care.

SUSTAINABILITY

At IVA Plants, we prioritise sustainable sourcing and environmentally conscious practices. Our teas are handpicked and crafted with minimal environmental impact, ensuring freshness and reducing our carbon footprint.

ARTISAN QUALITY

Every tea we produce is a masterpiece of craftsmanship. From hand-rolled black teas to carefully blended herbal infusions, we focus on delivering premium quality that your customers will love.

A JOURNEY INSPIRED BY NATURE

IVA Plants was born from a simple yet profound idea: to honour the beauty of nature through the art of tea. Growing up surrounded by the wisdom of herbs and plants, I dreamt of creating blends that capture the essence of these natural treasures.

This journey began with a passion for crafting teas that not only taste exceptional but also evoke a sense of comfort and connection. Every blend reflects a commitment to authenticity, from the carefully selected ingredients to the meticulous hand-blending process.

At IVA Plants, we strive to create more than just tea. We aim to share a piece of nature's serenity and craftsmanship with every cup, bringing moments of warmth and inspiration to your everyday life.

OUR PRODUCT

BLENDS CRAFTED WITH CARE

At IVA Plants, we offer a curated selection of teas designed to inspire and delight. Each blend is crafted with premium ingredients, reflecting our passion for quality and sustainability. From herbal infusions to artisan green and black teas, discover the perfect tea for every moment.

HERBAL TEAS

Our herbal teas are handcrafted using the finest herbs. Each blend is designed to provide comfort, wellness, and a touch of nature's beauty in every cup. From soothing to invigorating, these infusions are perfect for any time of day.

GREEN TEAS

Our green teas are sourced from a family-run farm in the Wazuka region of Kyoto, Japan, with over 350 years of expertise. Dedicated to preserving the environment, the farm uses no chemical fertilisers or pesticides, ensuring teas of unparalleled purity and quality. Each cup is a testament to their rich tradition and meticulous craftsmanship.

BLACK TEAS

Our black teas are sourced from a small farm in Sri Lanka, where every step is done by hand. The leaves are carefully picked, rolled, and sun-dried using traditional methods, resulting in teas of remarkable quality. Each cup is a true indulgence, crafted with dedication and skill.

WHY CHOOSE IVA PLANTS?

CRAFTED WITH PURPOSE, CHOSEN FOR QUALITY

Every tea we craft reflects our commitment to sustainability, quality, and authenticity. Partnering with small farms and using artisanal methods, we create blends that offer a truly unique experience.
