# Our story

## GORDON CASTLE SCOTLAND

Situated in the Scottish Highlands on Gordon Castle Estate, the Walled Garden is the restoration project of Angus & Zara Gordon Lennox, direct descendants of the Dukes of Gordon. This historical place acts as the inspiration behind the Gordon Castle Scotland brand and every product sold helps us on our restoration journey.

Our pilot product was our award-winning Gordon Castle gin. After the success of the botanical gin - crafted using herbs grown in our walled garden – we expanded the range to include plum and raspberry gin. Infused as opposed to using a concentrated syrup, our fruit gin liqueurs embody the natural flavours of the Scottish fruit, just as nature intended.

Inspired by our new plant to bottle products, the journey continued and we started extracting pure essential oils from the garden's plants and herbs which soon became the bath and body range. Wanting to make sure our base ingredients are as pure as our essential oils. they contain no palm oils, artificial fragrances, colours, parabens, glycols, sulphates, phthalates, petrochemicals & are never tested on animals.

Gordon Castle Scotland now has over 250 products each of which is derived or inspired by our incredible Walled Garden. As a brand, we are passionate about sustainability and using as much of the produce from the garden as possible. All of our delivery packaging is biodegradable and made from recycled materials. Once we have finished with our packaging we add it to our composting facility in the garden. Over time this breaks down & goes back into the garden as soil.

We encourage our customers to consider plastic free alternatives and to take this one step further we have developed a bespoke engraved glass bottle. This apothecary style glass bottle is engraved in house with your logo or message and can be refilled with our bath and body products.

Gordon Castle Scotland has both a wholesale and a retail range – please get in touch with Karen Millar [karen.millar@gordoncastlescotland.com](mailto:karen.millar@gordoncastlescotland.com) for more information or visit <https://gordoncastlescotland.com/pages/wholesale-trade>.

## GORDON CASTLE GIN

Scottish herbs are hand-picked from The Walled Garden and carefully blended and distilled to tease out the botanicals. This small batch award-winning gin is crisp, elegant and refreshing with a lovely clean palate. Subtle notes of lavender linger in the back of the nose and within the mouth allowing garden mint to come into focus, helping promote the clean and refreshing character.

We've taken this award-winning gin and infused it with our homegrown raspberries and plums. Gift sets and gin miniatures available.

## THE HISTORY

Gordon Castle was the home of the Gordon clan whose lineage dates to the reign of King Robert the Bruce in the 14th Century.

The Cock o' the North, the 5th Duke of Gordon, was the driving force behind the legalisation of whisky distilling in 1823.

More recently in the 1960s and 1970s, The Walled Garden was a commercial fruit farm for Baxters, producing 70 tons of raspberries a year.

## SOCIAL RESPONSIBILITY

Gordon Castle has a role in growing the local economy, employing over sixty people. Working closely with Moray, they develop and empower young people, volunteers and craft producers to enhance the region's economy and community.
