THE CUT GLENCAIRN GLASS

The Cut Glencairn Glass is a handmade and hand cut crystal item. Each glass is individually crafted and as with all handmade pieces, they will vary slightly from piece to piece.

No two can ever be identical and may reveal slight variations. Even by hand, all items are produced within tight tolerances and to the highest industry standards to provide an exceptional experience in crystal appreciation.

ACCEPTABLE EXAMPLES OF IMPERFECTIONS

- Tiny air bubbles can become trapped during the glass gathering and are revealed during the blowing process
- Hand tool marks
- Crystal pattern and colour irregularities
- Slightly asymmetrical form or variation in glass distribution

These small variations are the result of traditional, skilled hand craftsmanship, incomparable to mass automatic production.
