

Be immersed in a world of symbolism, myths and storytelling...

Laconic jewellery encourages you to embrace the true nature and power of jewellery, as a way to express yourself and tell your story through the jewels you wear — using few or little words.

In bold, sculptural fine jewellery, Lindsay translates stories and symbols from Scottish folklore narratives which are still relevant in the modern world. Talismans and armour for the present day.

Each design creates and reflects meaning for its wearer to encourage self-expression — to be a bit bolder and creative with your style — whilst allowing you to tell your own story through the piece you wear.

Fine jewellery crafted with symbolic undertones to connect you to moments in time, places once travelled, that celebrate you and those around you.

“Born into a land which is famed for its storytelling, I’ve been captivated by the folklore, myths and symbolism embedded into places once travelled”.
- Lindsay Forbes, Founder/Jeweller

The Fracture collection is inspired by the story of Beira and the impact of her hammer upon the mountains and ravines. What at first may appear fractured or broken is a symbol of strength and force to be reckoned with.
