K Price Art

Painting with Wool

Inspired by the landscapes and wildlife of the Scottish Highlands, Karen Price creates original artworks using a technique called needle felting - carefully layering wool fibres by hand with a single barbed needle.

At first glance, these pieces appear to be traditionally painted. Look closer and the rich textures and fibres reveal themselves, bringing each artwork to life in a truly special way. Selected artworks are then professionally printed onto a range of high quality products, each carefully chosen and approved by Karen and her team.

K Price Art is based near Loch Ness in the Highlands of Scotland.
