This street artist has burst onto the contemporary art scene, with an art collection that bonds modern street art with iconic images and landmarks from around the world!

SLEEK wants his artworks to look like they have just been recovered from the walls and streets of our cities - torn from chipboard walls and fences and brought right into your home.

Whilst staying true to the more traditional graffiti art movement, SLEEK has created some truly outstanding and collectable modern artworks to date. His portfolio of artwork has been created under license from DC Thomson, whom SLEEK has been working with since 2018, and features Scotland's favourite characters - from Oor Wullie to The Broons.

SLEEK uses modern spray can paints to create multi-layered graffiti artwork and tags, before applying hand cut stencils to add the details for his characters or imagery. The finishing touch to these stunning pieces is the UV-stabilising art resin, added to heighten the colours and protect the artwork itself.

With collectors around the world, and a growing fanbase, SLEEK has created this breathtaking collection of quality limited editions and merchandise for the modern day consumer. We hope these products bring happiness to you and all your customers.

BIG LOVE from SLEEK!

Oor Wullie and Fat Boab (OWFB19LE)

Oor Wullie...Braw (OWB19LE)

Deluxe presentation illustrated above.

Nothing But Trouble (NBT19LE)

Born to be Wild (BTBW19LE)

Sleek's deluxe limited edition prints come float mounted with a deckled (torn) edge. The presentation of the deluxe limited editions has been directly inspired by that of a Sleek original, as such, they not only mirror the aesthetic an original achieves, but also gives the illusion that the artwork has been ripped off the street wall.

Sizes Available	RRP (£)	Trade (£)
