

WHOLESALE Spring / Summer 2026

I'm Amy, the founder and designer behind every pair of our handcrafted earrings. I started Make because I couldn't find earrings that were bold, lightweight and kind to sensitive ears. so I made my own.

At Make & Me, I've built a brand that celebrates individuality and quality. Each pair of earrings is thoughtfully handcrafted to ensure every piece is **unique** - no two are exactly alike.

Using surgical-quality steel, my designs are **hypoallergenic, lightweight**, and perfect for sensitive ears.

I started Make over four years ago as a busy mum searching for earrings that were stylish, comfortable, and versatile. When I couldn't find them, I decided to create them myself.

Today, my business focuses on providing **affordable, fashionable** jewellery that help people feel confident and effortlessly put together.

Make's designs have a broad appeal (from dainty studs to bold statement pieces) making them ideal for shoppers seeking something special.

I'm passionate about sharing these handcrafted creations with more people, and I would be thrilled to bring them to your audience.

WHOLESALE - Spring/ Summer 2026

With a large range of shapes and sizes as well as two differing collections and price points, Make has something to suit everyone.

The Core Collections: The Core Collection is available in 3 seasonal colours as well as Navy and Black.
(These pieces are seasonal in colour, textured and Matte)

1. Tangerine
2. Petrol Blue
3. Powder Pink
4. Navy

The Patterned Collections:

The patterned pieces are made up of the seasons core colours and are matte in finish, perfect for every day wear.

6. Petrol Blue Stone

5. Powder Pink Stone

7. Hand-painted

The Special Collections:

The Special Collections include, cane work, hand painted, and resin coated pieces.

8. Floral Cane:

These earrings are created using a traditional cane-making technique, much like a stick of rock, where a larger floral design is carefully reduced by hand. Because the pattern runs all the way through the clay, each slice reveals a perfectly imperfect variation — making every pair completely one of a kind.
