

# Officially Licensed Paper Products Catalogue 2021

*Cardology offer premium licensed paper products which customers cherish*

Critically-acclaimed Cardology began when three family members, working in professional roles, felt their world was speeding up, and they were losing touch of the meaningful interactions they once enjoyed so much. They discovered the beauty of pop-up paper engineering in the Far East and pondered whether their own designs could help others searching to build similar connections. Making full use of their engineering backgrounds, production started in April 2014 and they haven't looked back since.

As a quirky, premium, and visually striking company, the team have a considerable following both within the trade, and with end customers. Be it licensed, off-the-shelf, or a bespoke creation, a Cardology card will always stand out.

Cardology view their offering as bridging the gap between a card and a gift; offering you a premium product for your very best customers. Is today the day you'll stock us in store?
