About Us

With over 50 combined years experience in creating traditional handcrafted goods, from Tracey's kiltmaking days & Kev's time as a blacksmith and a passion for all things craft, we have developed our own range of uniquely crafted products.

Our first steps began with the design and development of a range of products made using reclaimed Scottish oak whisky barrels.

Taking inspiration from Scotland's heritage we initially created a collection of gifts which bring together our traditional skills and modern technology (That's when the laddie joined us).

With over 100 new designs launching this year, we're excited for everyone to see what we've been working on. The most recent updates to our Moments Collection of tea-light holders has been in the works since they were first introduced.

The journey continues...
