Highland Lavender

Lavender essential oil has a light, soft aroma of fresh flowers and is very comforting, calming and relaxing and is known to help bring on sleep.

Hello and a very warm welcome to The Highland Soap Company.

ABOUT US

The Highland Soap Company was founded by Emma Parton in her kitchen 20 years ago and we remain a small, family-owned maker of soap and skincare products based in the Highlands of Scotland. We use organic and natural ingredients and ecological packaging to make what we believe are the finest and most sustainably made products made in Scotland.

These days, with our new larger premises in Fort William, we are better placed than ever to meet the needs of our customers. We've moved on from the kitchen table to a purpose-built workshop that is open to the public with a visitor centre, a beautiful store and Larder Café. Being retailers with our own shops as well as manufacturers, we understand how to help you make a success of our range. We love to show people round our new workshop, so if you're in the Highlands, drop by for a VIP tour!

Our products are:

- ORGANIC & NATURAL
- PARABEN FREE
- NATURAL INGREDIENTS
- NOT TESTED ON ANIMALS
- SUSTAINABLE PACKAGING

Cleanse:

Rose & Patchouli

An enchanting blend of rose absolute and patchouli oils that leaves skin smelling beautiful. Rose is an anti-inflammatory while patchouli is used in natural skincare for dry and ageing skin.

I bought myself the Highland Soap Co bubble bath while in Dunvegan, Skye and I absolutely adore the smell. So rich and sensuous. I cannot live without this in my bathroom now!
