Dear Customer

Welcome to our latest Catalogue

This is our first full Product Showcase for over 2 years. It gives us great pride and satisfaction to share this with you. It has been an emotional couple of years for all of us. We were focusing on understanding the impact of Brexit on our business when the Covid-19 pandemic started and then we had to deal with lockdowns, customer closures, stock write-offs, and clinging onto our livelihoods.

We are grateful that our business has come out of this 2-year period relatively strong. This is testament to our customers, suppliers, staff (and bank manager!) who have all shown amazing resilience, trust and support. There is still considerable uncertainty in the world, and the events in Ukraine have somewhat overshadowed the Covid-19 pandemic. We have started to feel the effects with significant inflationary pressures, and challenging supply chains. This only makes our partnerships with our customers, suppliers and staff, even more critical.

Our product range is still heavily focused on our traditional categories like Cheese and Charcuterie. There are, however, expanded ranges for ready to bake pastries, ready-made afternoon tea, dessert and savoury solutions. This has been driven by the changing market landscape; including our Customer challenges securing sufficient numbers of skilled staff to work in their kitchens.

Thank you again. We look forward to working with you this year.

Allan Currie
Managing Director

Now you know why Clarks have the best ice-cream

Stewart Tower Dairy Ice Cream is a fantastic artisan product, made on our family dairy farm in beautiful Perthshire. By following a traditional gelato recipe which incorporates less air into the mix, our ice cream has a fantastic flavour and luxurious texture to match.

We use natural ingredients and do not bulk up our ice cream with vegetable oils. We use fresh milk and cream from our cows to give you a taste to remember.

To improve our sustainability we use wind power to generate our own electricity for making the ice cream and help look after the environment.

Our ice creams come in a wide variety of flavours as well as seasonal specials. They are available for food service or retail options.

**That's why it tastes
soooooo good!**

THE MILLER'S

GUIDE TO TOPPINGS

PRAWN A favourite for fans of oxymorons: King Prawns are known as Jumbo Shrimp in the States. Whatever your view on this kind of word play, prawns are awfully good when paired with Miller's savoury crackers.

PASTRAMI The spiritual home of Pastrami is Katz's Deli, the setting for Meg Ryan's famous scene from 'When Harry Met Sally'. This is your chance to have your own "I'll have what she's having" moment.

HAM A ham, mustard and Miller's cracker pairing is a timeless classic that is simple and satisfying. Provided you don't make a ham-fisted attempt at putting it all together of course.

SMOKED SALMON A 'Salmon Run' is the migration undertaken by salmon when they return to fresh rivers from the ocean to spawn. A 'Chicken Run' is a British animated comedy from 2000 that's unrelated, but well worth a watch.

SALAMI Roman Legionaries were paid in salt, and this 'salary' preserved meat, in much the same way that salami is cured today. However, it is believed Romans would cut their salami using a pair of Caesars.

CAVIAR Alexander the Great's conquering armies marched for over 1500 miles before reaching the Caspian sea. Famed for its caviar, the journey there was certainly a tough row to roe, even for those with a surname like 'the Great'.

HUMMUS Lebanese chef, Ramzi Choueriri, made the world's largest ever bowl of hummus in 2010, when he whipped up more than 10 tons of the stuff. Ramzi presumably also has the world's largest fridge.

ANCHOVIES Fishermen catch anchovies by night, as their silver outlines glimmer under the light of the moon. You can recreate this effect with the light of your fridge if you indulge in a little midnight snack with Miller's crackers.

TUNA The average Atlantic bluefin tuna can grow to a whopping 6ft in length. However, just a small portion with a little mayonnaise and a Miller's cracker is all you need to satisfy the average human.

AVOCADO A 'food porn' favourite, up to 3 million photos of avocado and toast are uploaded to Instagram every day. French King Louis XIV was an early influencer. He regularly scooped Avocados down in an attempt to restore his libido.

The Miller's family of crackers to partner fine food.

Miller's Elements, Miller's Toast, Miller's Harvest & Miller's Damsel. *Cut from a different crop.*

Spain grows more than twice as many olives as the next largest global producer and processes them into olive oil and table olives. Perelló Gordal Olives are sweet, juicy and marinated with guindilla chillies, giving them a subtle touch of heat. The Spanish word 'Gordal' literally translates as fat, which is reflected in their size and as these large green olives are pitted, it makes them effortless to serve up. They make for an entertaining showstopper when stuffed with a thin slice of orange and covered in a smattering of oregano.
