JÓRVÍK

Inspired by **Scandinavia York**, Jórvík encompasses the scents of the bustling 9th century Northumbrian port and trade town.

Mood: A crowded city, smokey fires, and wooden homes. Longships pass along the river, carrying treasures from distant lands; trade and connection. Wild blackberries and strawberries mingle in the air, heady with the musky scent of leather-working and crisp autumn leaves.

Smell: Wild berries, fallen leaves, lavender, musk, freshly hewn wood.

Available in:

- 200g woodwick (glass), 35-45 hour burn.
- 150g cottonwick (tin), 25-30 hour burn.
- 85g cottonwick (tin), 15-20 hour burn.

birka

Inspired by the **Swedish Viking Settlement**, Birka encompasses the scents of vibrant island life in the 8th-10th centuries.

Mood: The scent of birch is crisp in the air. Freshly hewn wood ready to be moulded into ships litter the river bank. A busy port town in the middle of autumn. Earthy moss climbs thatched roofs, mingling with the scent of peat fires and sun-bleached cloth. Fabrics are woven, intricate patterns on dyed webs, amber-scented and sweet.

Smell: birch leaf, peat, earth, patchouli, sandalwood, amber, moss.

Available in:

- 200g woodwick (glass), 35-45 hour burn.
- 150g cottonwick (tin), 25-30 hour burn.
- 85g cottonwick (tin), 15-20 hour burn.

Jarlshof

Inspired by the **multi-phased Shetland** site, Jarlshof encompasses the scents the Norse settlement on the edge of the world.

Mood: A distant settlement made of wood and moss; wind beaten, sea-sprayed, sitting just beyond a great, cold ocean. Herbs hang from rafters: clove, mint, and basil. Sea pinks grow amongst verdant grass and wild bracken. All of this sits above ancient ruins, lost to time and sand, waiting to be known again.

Smell: Verbena, velvet woods, clove, mint, bergamot, earthy moss, amber, and leather.

Available in:

- 200g woodwick (glass), 35-45 hour burn.
- 150g cottonwick (tin), 25-30 hour burn.
- 85g cottonwick (tin), 15-20 hour burn.
