

# professionals in school refurbishments

## full refurbishment solutions

*innovative and productive educational environments, from initial consultation to completion - free design.*

CARE (Design & Furniture) Ltd spends many hours and days in client consultation with schools and Local Authorities in order to provide educational environments to a high quality specification that are fit for purpose.

Our services include:

- Professional design and project management
- Remove and disposal of existing furniture, services and finishes
- CDM regulations, health and safety compliance, managed by NEBOSH qualified professionals
- Electrical installation work by NICEIC certified engineers
- Time served tradesmen
- Mechanical installation work by Gas Safe Registered (formally CORGI) engineers
- New lighting
- Air conditioning where required
- New flooring, wall and ceiling finishes
- New window blinds
- New high quality specification furniture
- Cleaning
- All backed by a customer service that only years of experience can assure.
