

Education Estates[®]

Sustainability Conference

05 February 2026 | ExCeL London

Shaping Resilient and Adaptive Education Estates

The Education Estates[®] Sustainability Conference returns on Thursday 5 February 2026, bringing together everyone to share knowledge and best practice on how to reduce carbon emissions and drive sustainable change across the education estate.

Now in its fourth year, the conference has firmly established itself as a must-attend event for decision-makers from schools, colleges, universities, multi-academy trusts, and local & national government. It also attracts the architects, consultants, contractors and key suppliers who play a vital role in delivering on the sector's ambitions.

We're excited to share a sample list of people who have already registered for the event:
